A Pressman Scalded by Going Asleep in a  
Bath Tub After Turning on Hot  
Water.

Mrs. Schmelzer Arraigned for Supplying  
Her Son With a Revolver to Escape  
From Jail.

Four People Injured by a Switch Engine  
Crashing Into an Electric Car in  
Minneapolis.

Jesse Tucker, a St. Paul & Duluth Brake-  
man, Fell Beneath Freight Cars  
and Was Badly Mangled.

ST. PAUL, Aug. 27.—Stephen Grandmeyer, a middle-aged pressman, was the victim of a peculiar accident yesterday forenoon. About 11 o'clock he climbed into a bathtub in the Globe barber shop, and turning on the water at the foot of the tub, he went to sleep. The water began running at almost the boiling point, and Grandmeyer awoke with the skin scalded off his body. He aroused the bath room attendants with a series of yells for help, and by their aid he was lifted out of the tub of boiling hot water without losing more than one-quarter of the epidermis on his body.

Grandmeyer was taken to the city hospital in the central station patrol wagon where his burns were dressed, and after he has grown a quantity of new cuticle he will be able to finish his bath.

### ON A SERIOUS CHARGE.

Mrs. Schmelzer Charged With Aiding Her Son  
to Escape.

ST. PAUL, Aug. 27.—Mrs. Luella Schmelzer, mother of Charles Ermsch, the condemned murderer who made so desperate and nearly successful an attempt to escape Saturday noon from the Ramsey county jail, was arraigned in the police court today on the serious charge of aiding and abetting a prisoner to escape.

Ermsch has confessed that his mother smuggled the revolver to him Friday afternoon with which he caused such consternation around the jail Saturday.

### RAN INTO AN ELECTRIC CAR.

A Switch Engine Caused a Collision and Four  
People Were Injured.

MINNEAPOLIS, Aug. 27.—A Northern Pacific switch engine, going at the rate of 7 or 8 miles an hour, came near making mincemeat of an electric car at Main street and Twenty-fifth street northeast at about 6 o'clock last evening. There was a smart collision and four people were injured. The street car was considerably the worse for wear and was knocked from the track and several timbers were broken. Thomas Griffith, a passenger on the car, living at 523 Tenth avenue south; J. A. Stuart and an unnamed Murphy, both switchmen on the engine, and a brakeman named A. M. McCullum, were somewhat injured.

Griffith was taken home and Stuart removed to the city hospital. The former's back was badly wrenched, but it is not thought any bones were broken. McCullum and Murphy came out with only slight bruises.

### A BRAKEMAN KILLED.

Fell Between Cars of a St. Paul & Duluth  
Freight Train.

MINNEAPOLIS, Aug. 27.—The body of Jesse Tucker, late a brakeman on the St. Paul & Duluth road, was yesterday found on the tracks near Maple Hill cemetery, dreadfully mangled. Coroner Spring stated last night that no one had been found who saw the accident, and it is supposed that the man fell beneath the cars of an outgoing freight and was killed.

### D. W. INGERSOLL DEAD.

One of the Pioneer Citizens of St. Paul Died  
in Georgia.

ST. PAUL, Aug. 27.—Information has been received from Tallapoosa, Ga., of the death at that place, at 5 o'clock yesterday morning, of D. W. Ingersoll, one of the pioneer citizens of St. Paul. Mr. Ingersoll came to St. Paul in 1855 and engaged in the dry goods business, being the founder of the business now carried on by Field, Mahler & Co. He was prominent in political and social life in early days, having been a member of the school board and later president of the board of managers of the state reform school.

Mr. Ingersoll was twice married and leaves nine children, one of them George Edmund Ingersoll, of West Superior. Mr. Ingersoll had reached the ripe old age of four score and two.

**Drowning at Chaska.**  
CHASKA, Minn., Aug. 27.—Lizzie Schiller, daughter of William Schiller, of this city, was drowned last evening. She was taking a boat ride with her mother and when passing under the terry rope took hold and was thrown into the river, sinking immediately. After an hour's work the body was recovered, but life was extinct.

**Congressman Shaw Dead.**  
EAU CLAIRE, Aug. 27.—Congressman Shaw died at 8:20 o'clock this morning.

**Wanted for Forgery.**  
DETROIT, Aug. 27.—C. M. Hobbs, who has been under arrest here for some time on a charge of forgery, was identified today by one of his bondsmen, as A. M. VanAuken, who is wanted at Quincy, Ill., for a \$50,000 forgery. The prisoner denied the identification but will return to Quincy without requisition papers.

**Is Lieut. Welch Sane?**  
CHICAGO, Aug. 27.—Military proceedings to determine the sanity of Lieut. Welch, of the Fifteenth regiment, U. S., were begun at Camp Arlingston Sunday. By order of Gen. Miles, a medical board composed of three experts, visited the lieutenant and spent most of the morning at his tent.

## THE IRON ORE DUTY.

An Ishpeming Man Takes Exception to Col.  
Parsons' Figures.

WASHINGTON, Aug. 27.—[Special to The Herald.]—The statements made by Col. R. C. Parsons, of Cleveland, about the effect of the new tariff on the iron industry in the Lake Superior district has aroused the free trade advocates. Horace J. Stevens, of Ishpeming, Mich., takes exception to Col. Parsons' figures. In speaking about the matter he said: "Mr. Parsons' statement that Cuba and Spain can produce ore cheaper than the Lake Superior district is simply not true. The cheapest ore mined in the world comes from the Mesabi range. The Mountain Iron mine pays its steam shovel men, who do the mining, \$100 a month, yet they can produce ore for 30 cents a ton, loaded in cars. No Cuban or Spanish mine can begin to do that."

"The reduction in tariff on ore cuts precious little figure with the Lake Superior mines just now. They are selling cheaper than Cuba or Spain can possibly sell their ore in this country. Mr. Parsons understands that about 1,000,000 tons of foreign ore were landed at Philadelphia and Baltimore last year at a freight rate of \$1.25 per ton. I doubt if much ore was sent to the United States. The advocates of a high tariff on ore injure their own cause by making entirely groundless claims and assertions. They belie the question and falsify the figures. The Lake Superior ore industry is amply capable of standing on its own feet."

## SENATOR GORMAN'S HEALTH.

His Physicians Advise Him to Go to Europe at  
an Early Day.

NEW YORK, Aug. 27.—A special to morning paper from Baltimore, says: Senator Gorman's physicians advise him to leave for Europe at the earliest possible day, not only for the benefit of the sea voyage, but for the purpose of taking treatment at one of the German springs. His health is declared to be in a very precarious state.

An intimate friend of the Gorman family today said: "It is true that Senator Gorman's family and friends have been greatly alarmed about his health for several months, and his physicians have frequently advised him that he must devote a long period to absolute rest and abstain from work of all sorts at once. If Congress had not been in session, he would have left for Europe at once. The senator left Washington for Saratoga yesterday for a rest. If he does not improve, the whole family will probably go to Europe. It is their intention at all events to go to Europe in the spring, after the short session of Congress is over and remain there all summer. If Congress had adjourned earlier this summer they would have gone abroad and they may do so yet and remain until the short session begins in December. The fact is Senator Gorman has worn himself out by hard work, and if he does not stop he will not last long. He has been told this and it has only made his strong will that he kept him up."

## A TERRIFIC CYCLONE.

One Thousand Persons Have Perished Along  
the Sea of Azov.

ST. PETERSBURG, Aug. 27.—A cyclone swept over the sea of Azov on Saturday. It is almost certain that at least 1,000 persons have perished, some by drowning, others by being crushed under falling houses and trees. The excitement is great among the American colony in this city, for it is feared that at least two parties of American tourists were on the coast of Azov at the time.

The wind was first felt at Nogaisk. Nogaisk is peopled mostly by fishermen, who were out on the water. When the hurricane had swept out to sea a terrible scene was presented. The village was razed—overturned as if an immense plow had pushed through it. The shallow waters of the Sea of Azov were lashed to such a height that it was plain that every fishing boat must have been sunk.

The cyclone swept on to the northeast and wrecked Nogaisk. Mariupole was completely wiped out of existence. Not three houses in 100 was left standing. It is estimated that over 200 persons perished in the town alone. North of Mariupole the storm seems to have made a sudden turn to the eastward over Dolga Point, the left edge inflicting slight damage to the town of Berdiansk. Houses were unroofed and a dozen persons were killed by the flying timbers.

## WAS IN SECRET SESSION.

Large Crowds of Visitors Shut Out of the Sen-  
ate Today.

WASHINGTON, Aug. 27.—The scarcity of senators in the senate chamber today was more than compensated for by the immense crowds of visitors in the galleries. The diplomatic gallery alone was vacant, together with the president's bench in the reserved gallery but a solid mass of humanity packed the galleries to their utmost capacity. A large number of these were ladies, the rest were visiting Knights of Pythias.

There were not more than a dozen senators present when the chaplain offered up prayer, and this number did not increase beyond seventeen during the day's session. The senate soon went into executive session.

**Is Lieut. Welch Sane?**  
CHICAGO, Aug. 27.—Military proceedings to determine the sanity of Lieut. Welch, of the Fifteenth regiment, U. S., were begun at Camp Arlingston Sunday. By order of Gen. Miles, a medical board composed of three experts, visited the lieutenant and spent most of the morning at his tent.

## TO FREE ENTRY

Secretary Carlisle Decides That Goods in  
Warehouses Made Free of Duty  
Can be Released.

Need Not be Exported and Reimported to  
Get the Benefits of the New  
Act.

Carlisle Will Not Decide Any Errors in  
Punctuation Until Cases Reach  
Him on Appeal.

Tariff Bill Returned to the White House  
This Morning and Will be Law  
Tonight.

WASHINGTON, Aug. 27.—Secretary Carlisle has decided and will instruct customs collectors that goods placed in bonded warehouses under the McKinley law and made free of duty under the new tariff act are entitled to free entry and need not be exported and reimported in order to get the benefits of the new act. This is of a special interest to the wool trade, as a large amount of wool is stored now in bonded warehouses.

In this as in all other mooted questions the secretary will follow the intent of Congress and let aggrieved parties appeal to the courts if they are to contest on technical grounds. In accordance with this determination he undoubtedly will hold that diamonds are dutiable, notwithstanding the erroneous punctuation of the free list. The secretary today sent the following telegram to custom officials at all ports of the United States:

"Vessels with cargo not discharged nor entered for consumption may be made vessel warehouses temporarily for such goods as shall be entered today in bond."

The secretary today sent the following telegram to collectors at New York, San Francisco, Boston, Philadelphia, Baltimore, New Orleans, Chicago and Port Townsend, Wash.: "Treasury department office of the secretary, Washington, Aug. 27, 1894. Collectors of customs: You are instructed to follow concerning the collection of duties under the recent revenue legislation of Congress:

First. All articles heretofore subject to duty but made free by the provisions of the new act may be withdrawn from warehouse on and after Aug. 28, 1894, without the payment of duty.

Second. All articles manufactured articles specifically or generally provided for in schedule 'K' which are composed wholly of materials other than wool or worsted, or of which some material other than wool or worsted is the component part of chief value will be admitted on and after Aug. 28, 1894, at the rates of duty prescribed in the act; all other manufactured articles specifically or generally provided for in said schedule will continue until Jan. 1, 1895, to pay the rates of duty imposed thereon by the act entitled 'An act to reduce the revenue, equalize the products of, or exported from Venezuela, Colombia, and Hayti is hereby revoked, signed,

J. G. CARLISLE, Secretary.

Although, as stated, it is Secretary Carlisle's purpose that the intent of Congress shall be followed, it is learned that as to questions of error in punctuation, Secretary Carlisle will make no decisions or give any instructions to collectors until after actual cases have come before the board of general appraisers as to whether diamonds, seeds and certain other articles are, by the terms of the bill, the dutiable or the free list. Collectors, of course, without any instructions, hold them to be dutiable in order to protect themselves, and importers must go to law if they contest these rulings.

The tariff bill, which has been in the custody of the treasury department since shortly after it was sent to the president, was returned to the White House this morning. It stated authoritatively that a veto is out of the question.

## SUPERIOR'S SENSATION.

Body of a Colored Man Found Yesterday in the  
Nemadji.

Superior is not to be outdone in the way of horrors. Yesterday afternoon James Bardon and party were sailing in the Nemadji river when they discovered the badly decomposed body of a drowned man. It was identified by his wife and was found to be George Webb, a colored man of 37 years of age, who left his home a week ago, telling her he was going to Ashland and would send for his clothes when he got located.

He had been drinking heavily for some time and his wife understood him to say he was leaving for good. Whether it was suicide or accident is unknown.

## WIPED OUT BY FLAMES.

Town of Finland, on the South Shore Road,  
Destroyed.

ISHPEMING, Mich., Aug. 27.—[Special to The Herald.]—The settlement known as Finland, on the South Shore railroad, has been wiped out by flames. Many settlers have lost everything. Thousands of cords of poles, ties and wood as well as standing timber were destroyed.

Iron Creek on the same road was threatened. Several hundred million feet of standing pine have been badly damaged.

## RECOVERY IS VERY BROAD.

More Than a Revival From Effects of Last  
Year's Panic.

NEW YORK, Aug. 27.—Henry Clews says in his weekly financial review: The effects of last year's panic, that crisis, though immediately incident to the great silver fright, embraced also the effects of the deeper derangements that set in with the great barings' suspension, and of which that failure was but a symptom. Those derangements were largely in the nature of overproduction, over-speculation, over-trading, and were world-wide in their influence, and their effects still continue in the persistent depression of trade in every European nation.

If the recovery from these four years of reaction first makes its appearance in the United States, it is nothing more than might be expected from the great resiliency of our resources and from the fact that we have been less intimately connected with the disturbing causes than have other countries. It is reasonable to hope, however, that recovery on this side the Atlantic will tend to stimulate improvement on the other side, and thus it may quite possibly happen that the foreign markets, both commercial and financial, will respond to the improving tendency in our own.

## CRANBERRY MARSHES RUINED.

Fires in Wisconsin Caused Great Loss to  
Cranberry Growers.

MILWAUKEE, Aug. 27.—A special to the Evening Wisconsin from Cranberry Center, Wis., says the losses of cranberry growers in that vicinity from fires have been enormous. In and about Mather, where there have been many acres of burning marsh, and from the railway station thousands of barrels have been shipped yearly, there is almost nothing left.

The peat has burned down into the sand in places to the depth of two feet. The peat formed great beds of hot coals which were ever ready to brighten up when fanned by the breezes. Whirlwinds took burning coals high into the air and carried them over the heads of the fire-fighters and deposited them 20, 30 and 40 rods away.

Many of these tracts of land will probably never be used for growing cranberries again and, as they are almost worthless for any other purpose, will for a time revert to the county as useless ground.

## ASK HEAVY DAMAGES.

W. J. Holmes Sued for Failure to Complete the  
West Duluth Woolen Mill.

J. C. Hunter and Clinton Markell have sued W. J. and Ida Holmes to recover the title to four lots in Grassy Point addition. They entered into a contract with Holmes in June, 1890, he agreeing to build a woolen mill to erect and operate a woolen mill, employing not less than thirty people, to be operated for at least two years. The consideration was the four lots, for which the suit is brought, and \$12,000 cash bonus, \$6,000 of which was paid by the Grassy Point Land company. After eleven months Holmes discontinued the operation of the plant, which still stands idle. It is alleged that this was done for the purpose of defrauding the plaintiffs. They ask \$10,000 damages.

Napoleon St. Arnaud by his guardian Joseph St. Arnaud, has sued W. H. Denny for \$500 damages for injuries received in a "merry-go-round" operated by Denny at Twentieth avenue west.

A. R. McVicar claims that he had the sub-contract for grading Sixth avenue south in West Duluth, and that he was prevented from completing it by A. and D. Sang, the contractors. He alleges \$450 damages.

J. L. Ennis alleges that the Carpill Commission company agreed to give him employment for a year at \$1200, but he was discharged before the time was up. He sues for \$500, the salary for the remaining time.

Stryker, Manley & Buck have sued J. K. Shaw for \$450 on a note. R. C. Ray, as administrator of the will of J. D. Ray, has sued Simcoe Chapman for \$3000 on notes.

## MORALS OF DULUTH.

Rev. E. M. Noyes Severely Criticizes Some  
Things Which Exist Here.

Rev. E. M. Noyes in the pulpit of the Pilgrim Congregational church ventilated the morals of Duluth in an original manner last evening as a sort of parting shot. In opening, he said, that it was very delicate subject to touch upon before a mixed audience, but the interests of the city and country and morality in the abstract required that matters should not be minced.

"The city," he said, "is just as good as it deserves to be and just as good as it wishes to be." The average morals of the people were touched upon, and in passing he asserted that at least 100 business men of Duluth are leading double lives, supporting mistresses in apartments on Superior street. "And more shame to them."

The Pavilion, with its Sunday attractions and child dancers, was second as a dangerous factor in the community. He also had something to say about the Tribune. He spoke of the list of attractions at the Lyceum for this season as published in that paper, and quoted a part of the article in which it was said that the people of Duluth should be congratulated on the excellence of the list of attractions for their winter's amusement.

"Such an utterance is an insult on the part of the man who had charge of the article to the taste and artistic qualities not to mention morals, of the people of Duluth." As a reason for this he said that not one attraction on the list was enlightening, uplifting or improving.

## Was Suffocated in Wheat.

INDIANAPOLIS, Aug. 27.—At Flora, Ind., today Walter Long, a young man in a spirit of bravado, jumped into a great bin of wheat which was being loaded from an elevator into a car on the track below. The suction was so great that he was drawn in and suffocated before any effort could be made to save him.

# THE MOSQUITO LANDS

United States Government Will Recognize the Complete Sovereignty of Nicaragua in the Mosquito Reservation.

Chief Clarence Not Regarded as Having Any Rights Separate or Independent of National Control.

For All Acts With Respect to Americans There, Nicaragua is to be Held Responsible.

NEW YORK, Aug. 27.—A special dispatch from Washington says: Definite information concerning the Nicaraguan policy of the administration was obtained from an official source today. For some time there has been much speculation on the subject and recent advice from Bluefields say the present mission to London of Gen. Barrios, the Nicaraguan special commissioner, has aroused fresh interest here. Briefly expressed, the recognition of the complete sovereignty of Nicaragua in the Mosquito reservation is the policy which has been agreed upon.

Neither Chief Clarence nor his successors, in any event, is regarded as having any authority or rights, separate or independent of national control. Nicaragua is considered the only treaty power in the strip and the sole source of government, through which all relations concerning American interests in the reservation are to be had, and Clarence and his advisers are to be treated as pure local authorities, subordinate to and under the constant restriction of Nicaragua in all matters.

For acts of commission or commission with respect to Americans and their interests in the strip, Nicaragua is to be held responsible. Contracts and concessions now in force with Americans in the reservation are to be upheld, and the national government is expected to respect the same and to take such steps as may be necessary to their maintenance. To the greatest extent consistent with international courtesy Nicaragua is to be urged to sanction by law or proclamation the freedom of religion which obtains in the rest of the country.

An effort will also be made to induce Nicaragua to give a guarantee that excessive or unusual taxes will be lowered. Relative to the grants or concessions now held by Americans in the reservation, Nicaragua has been informed that the country regards them as binding upon the national government, which are considered in each instance as a contract, so to speak, voidable but not void under the new arrangement. They are to be kept in force, except when by mutual consent they become no longer operative.

Whenever for any reason a concession is withdrawn by Nicaragua without the consent of the party holding the grant, a suitable indemnity is to be provided. On this point the administration is said to be firm, and should cause arise where justice is to be done to Americans on the reservation, vigorous demands are to be made on Nicaragua in right the wrong.

**Shot Two Men.** MEMPHIS, Aug. 27.—In the little town of Pine, Tenn., yesterday, William Shaw and Bob Connor, brothers-in-law, had a terrific fight over an axe. Shaw shot Connor through the cheek, the ball passing under the tongue. In the meantime Henry Connor, Bob's brother, came running up. Shaw, seeing Henry coming, opened fire on him, shooting him through the stomach killing him instantly.

**A Bad Fire.** DETROIT, Mich., Aug. 27.—A special to the Free Press from Petoskey, Mich., says: Westville village, on the Grand Rapids & Indiana railroad, burned yesterday at a loss of \$50,000. The big woodenware manufactory is ruins.

The young men say the assault was entirely unprovoked. Albright says they tried to break into his house.

LAKE SUPERIOR CURRENTS.

Chief Harrington Makes a Report on His Recent North Shore Trip.

WASHINGTON, Aug. 27.—Mark Harrington, chief of the weather bureau, recently returned from a trip along the northwest shore of Lake Superior, undertaken with the purpose of the survey in order to complete the weather bureau maps showing the currents of the great lakes. The professor was accompanied by N. B. Macomber, the inspector of the lake marine work.

The trip was made in a sail boat, with a crew of three men, in which the professor approached the shores of Lake Superior and the shores of the islands. Owing to the character of the northwest coast of Lake Superior and the shores of Isle Royale, which are very rocky and steep, showing the occurrence of a very heavy surf, it is impossible for the current bottles used in the determination of the lake currents to be landed without breakage.

The fact only one current bottle has been recovered from these shores and that in a deep inlet on Isle Royale, which the seas did not reach. In the absence of information to be obtained in the usual way, Professor Harrington was forced to rely upon other methods, such as the indications of dry wood, the drift of wreckage, and the accounts of fishermen; also direct observations of the drift of floating objects, etc.

Professor Harrington reports to the secretary that from the trip he has obtained, he has made it possible to fully complete the scheme of surface currents for Lake Superior as shown on the map which accompanies the report. Many temperature observations were taken during the trip, observations which showed some interesting facts. It was found, for instance, that the temperature of the water in Lake Superior is very low and especially in the open lake, falling sometimes in July and August below 42 degrees.

A Lake in India Broke Its Bounds and Created Havoc.

SIMLA, India, Aug. 27.—Gobna lake, which for some time past has threatened to break its bounds and sweep down the valley, at the head of which it lies, has broken the dam which controlled the waters.

Thousands of tons of water poured through the valley like a cataract, sweeping everything before it. Villages along the valley were wiped out, of existence in an instant. The young men say the assault was entirely unprovoked. Albright says they tried to break into his house.

# IS WANTED IN 'FRISCO

One of the Desperados Captured by the Chicago Police Saturday Was in San Francisco.

Thought to be a Man Who Robbed Members of the University Club of Jewelry.

Worked But a Few Days and Skipped With Rings, Chains, Watches and Other Valuables.

San Francisco, Aug. 27.—One of the two desperados captured by the Chicago police Saturday, after a 6 hours' chase is badly wanted here by the local authorities. At least Capt. Lees thinks he is the same man who escaped from this city last February after robbing members of the University club of a lot of valuable jewelry.

The description of Gordon given in the dispatches tallies with that of the man whom the local police have been looking for for six months. He is a man of about 35 years of age, of medium height, with a fair complexion, and there are other circumstances that make almost a certainty the supposition that the man now in the Chicago prison is the man who operated here last winter.

On Feb. 15 last Henry Francis Gordon was employed as a bed maker in the University club on Sutter street. He was a man apparently about 30 years of age, small built and about five feet six inches in height. He spoke with an English accent, he was recommended by the British Benevolent society and was also said to be a member of the Y. M. C. A. He worked but a few days and then disappeared, leaving behind him several hundred dollars worth of rings, chains, watches and other valuables which he had taken from the rooms of the gentlemen who lived at the club and that he had been investigated.

The matter was reported to the police and an investigation was ordered. It was ascertained that the British Benevolent society knew little or nothing of the man and also that he had no connection with the local branch of the Y. M. C. A. It was ascertained that Gordon had a wife living in this city and that he had been married to her a year or so.

WEST. DULUTH ITEMS.

Thomas Doyle Raises the Limit, Presenting a Forged Draft for Five Hundred Dollars for Payment.

He is Now Under Arrest and Has a Rather Serious Charge to Answer To.

West Duluth Ball Nine Wiped Up The Earth With The Duluth Grays Yesterday Afternoon.

Thomas Doyle is under arrest for attempting to pass a bogus check of \$500 on several merchants and saloonkeepers. Doyle evidently has been reading The Herald the past few days and has learned of the ease with which T. McLean has been obtaining small sums of money by this system of finance. The check was a little too large to pass through conveniently and at once aroused suspicions, which led to his arrest.

Another McLean check turned up at the Manufacturers' bank this morning from Cluett, which showed that the forger is still doing business at the old stand.

Doyle is well known in West Duluth and lives near the woolen mill. Several Finlanders were also placed under arrest yesterday for causing a disturbance in Erickson's saloon on Grand avenue on Saturday evening. Erickson makes a complaint that the men were in his saloon at the hour of closing and refused to go out when he told them to do so. When he attempted to put them out one of them, John Malstrom, drew a knife and cut him in the hand leaving a severe gash. The fins were taken to court this morning for examination.

The Grays Done Up. Another interesting game of ball was played at the Great Western grounds yesterday afternoon between the Duluth Grays and the West Duluths. The score was 31 in favor of the West Duluths. Up to the seventh inning the Grays were in the lead with a score of 11, when the West Duluths put Elliot, their new pitcher, into the box, and about the only Grays had to do after that was to fan out and look tired. Elliot proved a handy and with Bennett will make a strong team in the box for the West Duluths. This afternoon the West Duluths' "Scrubs" and the New Duluths crossed bats in the field for the second match game.

West Duluth Breeds. The primary caucus for the Eighth ward will be held tonight in Stewart's hall on Central avenue between the hours of 8 and 9 and for the Fourth and Fifth precincts of the Seventh ward at G. Getchell's office also on Central avenue.

Mrs. A. C. Weddell is expected to return this week from an extended visit at her old home in Jackson, Mich.

F. E. Dilla, of Jackson, Mich., is a guest of Capt. Randall.

Miss Bertha Randall has returned from the summer school at Minneapolis.

**ENTERS A COMPLAINT.**  
A Young Lady's Experience in Trying to Cross  
Fourteenth Avenue East.  
"I want to enter a complaint concern-  
ing the condition of Fourteenth avenue  
east," said a young lady to a Herald re-  
porter today. "That avenue is being  
graded and is in bad condition for pe-  
destrians, especially at First street.  
There is no street light here and the  
street is very muddy. Friday night, in  
the darkness, I got into the mire clear to  
my knees and in attempting to get out,  
fell over, bruised my arm and leg and got  
covered with mud from head to foot. A  
couple of weeks ago, a lady friend who  
was visiting me, got into the same place.  
She had on a white dress and white slip-  
pers. You can imagine how she looked  
after being extricated. Several others  
also have had unfortunate experiences  
with these mudholes. I think the mud is  
caused by allowing the hydrant to run.  
Anyway, a street lamp should be there  
to warn and guide those who are ignorant  
of the danger on that avenue."

**Passed Counterfeit Money.**  
John Francis was arrested yesterday  
for passing a counterfeit \$5 gold coin at  
a cigar stand. He gave his name as  
William Richardson when arrested but  
afterward said it was John Francis. He  
claims that he came to Duluth to work  
for the Northern Pacific road as a switchman.  
He says he had a draft for  
\$35 cashed on Saturday at the First Na-  
tional bank and received \$35 in gold,  
the piece in question being one he re-  
ceived.

At one or two other places men tried  
to pass \$5 counterfeit coins yesterday.

**Catarrh Cannot be Cured**  
With local applications, as they cannot reach  
the seat of the disease. Catarrh is a blood or  
constitutional disease, and in order to cure it  
you must take internal remedies. Hall's  
Catarrh Cure is taken internally and acts di-  
rectly on the blood and mucous surfaces. Hall's  
Catarrh Cure is not a quick medicine. It was  
prescribed by one of the best physicians in this  
country for years, and is a regular prescrip-  
tion. It is composed of the best tonics known,  
combined with the best blood purifiers, acting  
directly on the mucous surfaces. The perfect  
combination of the two ingredients is what  
produces such wonderful results in curing  
catarrh. Send for testimonials at free.

## PASSED THROUGH HIM

John Ringdahl Killed at the West End by  
the Unexpected Explosion of a  
Winchester.

The Bullet Went Through His Intestines  
and Came Out at the Back Causing  
Death.

Murder Case is Still an Unravelled Mystery  
—Another Disappearance Case Re-  
ported to the Police.

John Ringdahl, a laborer, was fatally  
shot by his brother Peter at 2:30 this  
afternoon. Peter Ringdahl was extract-  
ing a cartridge from a Winchester rifle.  
His brother was standing by him watch-  
ing the operation. In some manner the  
trigger caught and the gun was ex-  
ploded.

The rifle was pointed at John Ringdahl  
when it went off and the ball entered his  
abdomen. It passed through his intestines,  
coming out at the back. Death  
followed in half an hour.

The accident occurred between  
Twenty-third and Twenty-fourth ave-  
nues west on First street, at the residence  
of the Ringdahls. The deceased was 35  
years of age and unmarried.

**BAFFLES THE POLICE.**

Par Point Mystery Still Unsolved—Another  
Disappearance Reported.

It is still a mystery. The identity of  
the woman found on Minnesota Point  
last Wednesday is as far from being  
fixed as it was the moment she was found.

This morning a possible disappear-  
ance of two people that may have some  
connection with the case was reported to  
the detectives. A short time ago  
a man and woman moved into  
117 East Eighth street. They were heard  
quarreling occasionally and last Monday  
had quite a violent altercation. Since  
that time they have not been seen. Two  
or three days ago the neighbors finding  
that there was no one around, made some  
investigations. They found the front  
entrances unlocked and the house  
empty. Since that time not a soul  
has appeared. The house is nicely fur-  
nished.

The description of the woman tallies  
fairly well with that of the murdered  
woman. The man's description does not  
fit that of the man who was with the  
woman Tuesday night.

**A PECULIAR QUARREL.**

"Uncle Jimmy" O'Neill and U. Knucky Have a  
Personal Encounter.

Last Saturday, at the time of the circus  
parade, "Uncle Jimmy" O'Neill and U.  
Knucky, the cowherd on the Heights,  
had a personal encounter, but before  
they, by force of fists, could decide which  
was the best man, an officer, collared  
both and took them to the police station.  
They put up bail and were released until  
today, when they appeared in police  
court. O'Neill pleaded guilty to disorderly  
conduct. Knucky pleaded not  
guilty and his hearing was set for to-  
morrow morning at 10 o'clock. Sentence  
in "Uncle Jimmy's" case was deferred  
until tomorrow morning.

The cause of the quarrel between the  
two men was unique to say the least.  
Some years ago Uncle Jimmy was on  
quite friendly relations with Mrs.  
Knucky. A girl was born in the course  
of time. Uncle Jimmy claims to be the  
father of the child and Mrs. Knucky has  
made statements to that effect. Knucky  
denies it. O'Neill thinks the world of the  
little girl and spends considerable  
money, of which he has plenty, on her  
support. Recently he has been keeping  
her in his possession. Saturday the two  
alleged fathers of the child met and be-  
gan to quarrel over the possession of  
the child with the result stated above.

Joe Buckley and John Finn drunks,  
and Lewis Burgo, a vag, were given sus-  
pended sentences. John Anderson was  
sent up for ten days for getting intoxi-  
cated. John Lindstrom charged with  
drunkenness forfeited \$15 bail.

**Fire at Swan River.**

Fire broke out in an old set of camps  
of the Wright & Davis lumber com-  
pany at Swan River. About 2,000,000  
feet of logs were burned. These were  
being shipped out and in two days more  
would have been disposed. The camps  
were comparatively valueless and the  
loss on the logs was the total damage.  
Street rumors this morning had it that  
100,000,000 feet and a lot of horses, etc.,  
were burned but these were false.

**The Council Meeting.**  
The regular meeting of the city coun-  
cil comes tonight. The budget of busi-  
ness is likely to be limited. The ped-  
dler's license ordinance may come up  
and a few other matters, but nothing ex-  
citing. A meeting will probably be held  
the last of the week to pass the August  
pay rolls. Next Monday is Labor day, a  
legal holiday, and no session will be held.

**Must Wait Thirty Days.**

Deputy Marshal F. A. Danahower, Jr.,  
is in the city today straightening up with  
the men who served as deputy marshals  
during the late strike. The men were  
somewhat disappointed at receiving  
pay rolls. Next Monday is Labor day, a  
time bills due in thirty days. None of  
them received cash. About \$4000 or  
\$5000 is the amount due in Duluth.

**To Cleanse the System.**  
Effectually yet gently, when constive or  
bilious, or when the blood is impure or  
sluggish, to permanently cure habitual  
constipation, to awaken the kidneys and  
liver to a healthy activity, without irri-  
tating or weakening them, to dispel  
headaches, colds or fevers use Syrup of  
Figs.

An examination of teachers will be  
held in the High School building, Du-  
luth, Aug. 29-30. W. H. Smith,  
County Superintendent.

through the garment.

**STILL GOING UPWARD.**

Rates on Wheat and Ore Continue to Get  
Stronger.

Lake freights are in still better condi-  
tion today. Rates are firm with upward  
tendencies all around, and vessel brokers  
feel like themselves one more. The  
wheat rate is strong at 2½ cents with 2½  
cents in prospect. Ore is strong at 75  
cents and 80 cents will probably follow.

Lumber is fairly strong at \$1.75 with  
brighter prospects.

The coal rate of 40 cents seems to hold  
still, but it is said that Erie brokers  
will refuse to accept cargoes less than  
50 cents after the first part of this week.

**Tigers Were Fighting.**

The tigers in the Barnum & Bailey  
show quarreled on Saturday and there  
was a lively fight for a few moments.  
They made a hideous noise and when  
the lions began roaring there was a ter-  
rific din. The fight was quite a sight  
for those witnessed it. It took some  
pretty sharp prodding with iron before  
they could be separated and the iron  
partition placed between them. One of  
the tigers was torn considerably about  
the mouth. The big fellow was a hand-  
some specimen and was greatly ad-  
mired.

## THE PYTHIANS.

Report of Supreme Chancellor W. W. Blackwell Read to the Knights of Pythias at Washington.

Deals in a Vigorous Manner With Those Using a German Translation of the Ritual.

A Net Increase of Seventy-Two Thousand Members During the Past Two Years Reported.

Urges that the Supreme Lodge Declare No Saloonkeeper, Bartender or Gambler Eligible to Membership.

WASHINGTON, Aug. 28.—The report of the supreme chancellor, W. W. Blackwell, Knights of Pythias, will attract wide attention, both inside and outside the order, especially for the vigorous manner in which he deals with questions arising from what he terms an organized rebellion of certain persons who have persisted in publishing and using a German translation of the ritual, despite the refusal of the supreme lodge to permit translations.

He gives the following as the statistics of membership according to unofficial report to July 1, 1894: Grand lodges, 54; subordinate lodges, 626; total number of members, 45,741, a net increase of 72,125 members during the past two years. The financial condition is most satisfactory. The order universally is in a most prosperous condition and the times are propitious for a much greater increase during the next two years than ever before in our history.

No small amount of friction has been engendered during the past two years, growing out of the action of the Kansas City session, dissolving all connections heretofore nominally recognized as existing between the Pythian Sisters and the supreme lodge, and thereby bringing this institution under the ban of a scriptural through the adoption of a new constitution. This can be done by special edict, making an exception so far as the divisions upon which the law may be based in its operation of the law may affect them and let it stand as to all other organizations.

The German Question.  
Under the head of "the German question," the supreme chancellor says: "You are confronted with an open, defiant element of malcontents, who, having violated every principle of honor by having taken the law in their own hands and translated the ritual, now have the hardihood to come before you, reeking with treason and rebellion, and to demand the guile of loyalty as you grant them something they already have. Will the spirit of the American doctrine, 'never to meet with treason,' prevail, or will you permit a handful of traitors to influence a majority of men? Will you permit a handful of traitors to influence a majority of men? Will you permit a handful of traitors to influence a majority of men?"

"The time has come when American citizens should be Americanized, and however hard it may appear temporarily, the successful accomplishment thereof will be worth all it may cost. I have urged upon our German brothers the necessity of losing their identity as foreigners by adopting the English language, becoming in fact American citizens, as they all profess they are, and of relieving themselves of the unenviable distinction of being foreigners at all."

"Being American citizens by adoption, they enjoy every privilege of one native born and consequently are American citizens, pure and simple, and should desire to be still classed as Americans with foreign predilections, unless they have lurking beneath the cloak of adoption a secret love for the fatherland, which they are cultivating to the detriment of the best interests of this great country? Why should any fully recognized citizen of this country desire to be classed as a foreigner of any kind, when the designation brings to him a certain element of doubtful respectability compared with that of simple 'American citizenship'? Who are the 'foreigners' of this country as generally accepted by everybody? A certain disreputable scum from Europe, that have been dumped in upon us during the past twenty years, headed by anarchism, socialism, hoodlums, degenerates, beatism and otherisms that are being secretly cultivated to the disadvantage of our country's interest."

"I have been accused of classing our German brothers with the above, but instead have said to them: I want to help you lift yourselves entirely out of such an unenviable classification by having each individual the English language, practice what you endorse, eliminate any evidence of foreignism from your lodges and declare for a standard of measurement that will require a reasonable understanding of the chosen and recognized language of the country desire to live, before conferring the right of full citizenship upon any man."

"Having pledged our loyalty to the government under which we live, I deem it our duty, and hope it may prove our pleasure, to define that pledge to carry with it the promise to practice and use its chosen and selected language; believing, as I do, that no foreigner, however intelligent, can become an American citizen in its full accepted intent until he understands the English language. In deference to our pledge of loyalty, let us engrave upon our American citizenship the statement that we will uphold, sustain and advance our country's language by hereafter issuing our rituals only in the English language for use in the United States and Dominion of Canada, coupled with the proviso that France, Germany and other lands using a different language shall be protected in the right of their national tongue whenever they become our pleasure to introduce our order therein. If our German brothers are not willing to subscribe to this sun line theory, they are not the good citizens they profess and if not, the sooner we know of it the better."

Saloonkeepers and Bartenders.  
"Some years ago this body granted permission to the grand lodges to locally legislate as they might desire upon the saloon element question and the eligibility of owners and tenders thereof to membership. Under this permission several grand lodges have since declared saloonkeepers and bartenders ineligible upon the ground of their business engagement having a strong tendency to the cultivation of immorality, lawlessness and other disreputable habits in contradiction to the teachings of our order."

"Surprising as it may seem to some, it is nevertheless demonstrable that the grand lodges which have taken hold of this question and legislated to exclude saloonkeepers and bartenders have not only succeeded in securing the best material, but they also stand as the most active and progressive among the grand jurisdictions. It was the wisest and most judicious lodge to experiment when permission was granted grand lodges to locally legislate upon this question. I am glad to report the excellent results of law, order, morality, respectability, better citizenship and a higher knightlyhood, that I am constrained to conclude that the time has come when as a great fraternity, should pause and consider the expediency of any other policy, and declaring that no saloonkeeper, bartender or professional gambler shall hereafter be considered as eligible to apply for membership in any lodge of this order."

Many topics are discussed and recommendations made concerning the work of the order. It is recommended that the term office of subordinate lodges be one year instead of six months, and that the use of castle halls for burlesque parties be prohibited. It is suggested that a rule be adopted permitting such divisions as may desire to exchange the sword for the gun, and thus bring the body more in harmony with current military ideas. "I am strongly of the opinion," says the supreme chancellor, "that a general change from sword to gun would bring a great revival and influx of new members into the military branch of our order. I suggest that steps be taken to obtain the views of all the divisions upon this subject, and if a determination, if the majority so wish, to make the change. I am told that a good spirit prevails, and the idea prevails. I suppose it will be necessary to obtain consent in each state to bear arms as a body."

Supreme Keeper White.  
The report of the keeper of records and seals, R. L. C. White, says: The number of subordinate lodges Dec. 31, 1893, was 6008, and the number of members 43,151. At the close of the calendar year of 1894 lodges and 29,201 members, and a net gain during the year of 1894 and 1895 of 10,707 lodges and 85,091 members. While this gain is not so large, either in subordinate lodges or members, as that of the years 1890 and 1891, it is considered a very satisfactory financial depression during the past eighteen months, both remarkable and gratifying and is believed to exceed that of any other year in the history of the order.

Dec. 31, 1893, the total amount in the treasuries of the grand lodges was \$190,559 and to the amount in those of the subordinate lodges was \$83,443.58. The total lodges amount of the assets of subordinate lodges at the same date was \$7,668,051.47. The amount disbursed for relief by subordinate lodges during the year 1893 was \$1,205,135.08, while for the two years 1892 and 1893 it was \$2,379,374.13.

The report of Thomas C. Sample, supreme master of the exchequer, for the year ending March 31 last is as follows: Total receipts during year \$9,128,585. Total expenditures during year \$6,240,311. Balance April 1, 1894, \$2,908,274.55.

Gen. James R. Carnahan, commanding the uniformed rank, says: The work of organizing new divisions has been difficult because of the depression, and for the reason that our Knights of Pythias, for the most part, being men of moderate means, have felt constrained to husband their resources. Notwithstanding the condition of affairs, we have had a reasonably healthy growth. From the best information to be gained from the reports as made, the value of the property owned by the uniform rank today aggregates very nearly \$1,300,000.

CONGRESS HAS ADJOURNED.  
Both Houses Declared Adjourned at Two O'clock This Afternoon.

WASHINGTON, Aug. 28.—Promptly at 2 o'clock both houses of congress adjourned sine die. Nothing of any importance was done in either house today.

The Vigilant's Troubles.  
SOUTH BEND, Ind., Aug. 28.—Another accident happened to the Vigilant today. While continuing the attempt to reshore her center board one of the chains supporting the board slipped and the board slipped out of the trunk and is now at the bottom of the dock. Divers were immediately set to work and it is expected that the center board will be recovered and slung along before the day is out.

## TOWNE GETS IT.

The St. Louis County Candidate Was Nominated for Congress by the Brainerd Convention.

Mr. Towne Had No Opposition and the Nomination Was Made Unanimously Amid Great Enthusiasm.

Col. Crooks, of St. Paul, Will Probably be Selected as the Democratic Candidate for Governor.

Gen. Pope Again After the Railroads Trying to Get Coal Rates to Mankato Reduced.

ST. PAUL, Aug. 28.—A Brainerd, Minn., special to the Dispatch says: At 11 o'clock the Brainerd opera house was crowded with enthusiastic Republicans. The Duluth Glee club rendered several patriotic selections which were loudly applauded. Mr. Benson, of St. Cloud, chairman of the congressional committee, read the call of the Brainerd convention, nominated Col. Whitney of Wright, temporary chairman and Mr. Towne, of St. Paul, as secretary.

On motion of A. C. Bernard, of Itasca, a committee on rules and order of business was named, also committees on credentials, resolutions and permanent organization. The resolutions committee had a member from each county, while there are five on each of the other committees. Pending the report of the committee a recess was taken until 2:30.

The resolutions committee consists of Luper, Atkin, Caswell, Anoka; Holman, Benson, of Brainerd; Phillips, Cass; Frater, Crow Wing; Wright, Hubbard; Bernard, Itasca; Cogswell, Lake; Briggs, Mille Lacs; Savant, Pine; Johnson, St. Louis; Myrle, Sherburne; Hendricks, Stearns; Miller, Todd; McMillan, Wadena; French, Wright.

The resolutions endorse the Republican policy of protection, progress and prosperity. On the financial policy they declare for bimetalism and coinage of both gold and silver free, the ratio to be determined by the relative values of the metals, if possible, by an international agreement; favor a double discriminating duty on imports of countries that do not come in on an international agreement; drastic measures in immigrant inspection and the deportation of anarchists; a government inspection of the railroads of American railroads to the end that a permanent scale of wages be maintained so far as possible to railway employees but not government ownership of railroads. The present congress and the Cleveland administration are arraigned. C. F. Johnson, of Duluth, is chairman of the platform committee.

The delegates began to arrive last evening but Mr. Towne did not reach until early this morning. The Duluth delegation were hope of railroad men, and as soon as he had retired he was surrounded by friends who wanted to make him chairman of the convention, but he refused the honor.

This afternoon H. H. Phelps, of Duluth, nominated C. A. Towne for congress and by a rising and unanimous vote the nomination was carried. Mr. Towne responded appropriately and eloquently.

CROOKS FOR GOVERNOR.  
A St. Paul Man to Head the Democratic Ticket.

ST. PAUL, Aug. 28.—[Special to The Herald.]—The executive committee of the Democratic state central committee, comprising members from Ramsey and Hennepin counties, are in session at the Merchants this afternoon endeavoring to decide upon candidates, especially one for governor.

Col. Crooks, of St. Paul, will probably be chosen head of the ticket; Frank Randall, of Winona, for lieutenant governor; J. J. Thornton, of St. James, attorney general; A. L. Sackett, of St. Paul, auditor; Seagrave Smith, of Minneapolis, for chief justice, if St. Paul is not endorsed; O'Shaughnessy, of Stillwater, clerk of supreme court.

TO REDUCE COAL RATES.  
Gen. Pope, of Mankato, is Again After the Railroads.

ST. PAUL, Aug. 28.—[Special to The Herald.]—R. M. Pope, of Mankato, today filed two complaints with the railroad and warehouse commission, one asking that the rate on hard coal via the St. Paul & Duluth road from Duluth to Minneapolis be reduced from \$1.50 per ton to \$1.25 per ton, and another to the effect that the St. Paul & Duluth road and Minneapolis & St. Louis roads were charging a higher rate per ton per mile on soft coal from St. Paul and Minneapolis to Mankato, than from Duluth to the Twin Cities.

between Duluth and Mankato and the railroads have appealed to the district court of Hennepin county from that order. In these latter complaints the railroads will be given ten days to answer, after which if they refuse to reduce the rates a hearing will be ordered.

VERY TIRED OF ITS JOB.  
The Committee Investigating the St. Paul Schools Disgusted.

ST. PAUL, Aug. 28.—The special committee of the school board which has been investigating the alleged immoral condition of the public schools at St. Paul, is becoming tired of its disagreeable and apparently fruitless task, and at the regular meeting of the school board at the high school building this afternoon the committee reported on the progress so far made and asked the board for instructions as to whether or not the investigation shall be continued. The alumni association of the St. Paul high school, at the meeting last night, adopted resolutions expressing the confidence of the alumni in Superintendent Gilbert's ability, integrity and morality, and deprecating the malicious attacks upon that gentleman. The resolutions also condemn charges against the public schools of the city.

A BIG WHEAT CROP.  
The Yield in the Red River Valley is Abundant.

GRAND FORKS, N. D., Aug. 28.—The harvest weather for the past week or two has enabled farmers who were delayed in their seeding to finish cutting their wheat without damage. The gathering of the harvest in North Dakota will be practically finished this week. In some parts of the state it was finished last week.

Farmers who finished sowing early in March are now rejoicing in abundant crops, safe in the stack or threshed, from seventy to eighty days was a short time for a crop of wheat to mature, but this year there are farmers in the Red River valley who sowed, cut, threshed and shipped in just ninety days from the date of the last day's sowing. This has been the shortest and quickest harvest ever known in North Dakota, and the yield is from twelve to forty-two bushels per acre in the valley.

Found a Peculiar Ring.  
CHAMBERLAIN, S. D., Aug. 28.—A. J. Williams, of Percival, Neb., has found a peculiar ring on the Custer battlefield. Engraved around the band are the names of fifteen of the principal battles of the civil war. Most of the names can be made out with a magnifying glass. The owner of the ring, Mr. Williams thinks, probably perished in the massacre on the Little Big Horn. Mr. Williams has made every effort to discover the whereabouts of anyone who would recognize the ring, but without success.

Suicide While Drunk.  
STEVENS POINT, Wis., Aug. 28.—Nicholas Schneider, a native of Prussia, aged 36 years, committed suicide yesterday in a grove back of P. H. Cassin's station by shooting himself in the head with a revolver. He had been drinking hard of late and was drunk when he committed the deed. He leaves a wife and four children in needy circumstances.

An Editor Dead.  
ST. PAUL, Aug. 28.—A Green Bay, Wis., special to the Pioneer Press says: Mrs. Rosamond Follett, aged 37, editor and publisher of the Daily and Weekly Gazette, died at 7:45 p. m. of cancer. She leaves a son 20 years old. She was a member of the Wisconsin State Press association.

Instructed for Baldwin.  
PARK RAPIDS, Minn., Aug. 28.—The Hubbard county Democratic convention yesterday instructed its congressional delegation to support Maj. Baldwin for nomination and directed its state convention delegations to oppose fusion.

## DEFEAT FOR THE FRENCH

Part of the French Garrison at Timbuctoo Cut to Pieces by a Force of Arabs.

PARIS, Aug. 28.—Most startling news has been received here from Senegal, West Africa. According to a report received at St. Louis, the French garrison at Timbuctoo, after three days' desperate fighting with the Turegs and other hostile tribes which have been investigating that city for a long time past, made a sortie.

The beleaguering forces were overwhelming in numbers and fell upon the sortie party fairly annihilating it. This news has spread consternation in many circles, as it is the second serious disaster the French have met within the vicinity of Timbuctoo since that important Soudanese town was occupied by them early in the present year.

It is in all probability part of the force of Capt. Philippe and Col. Joffre which has, according to the advices from Senegal, been cut to pieces by the Arabs. It is believed that the garrison of Timbuctoo has, since the Joffre column arrived there, been again reinforced.

The New Cable.  
NEW YORK, Aug. 28.—The Commercial Cable company's steamer Mackay-Bennett has arrived from Halifax. She will proceed at once to lay the shore and cable to the new Commercial cable from Coney Island point up through the narrows and up the bay to New York city.

Tragedy in Mexico.  
PRESIDIO, Tex., Aug. 28.—A desperate tragedy has just occurred in the little town of Ojinaga across the Rio Grande, in which Vidal Burgess, a supposed gine man, shot and killed Narciso Jimenez, a merchant of the place, and seriously, if not fatally, wounded Bibiano Jimenez, and a man named Pautano. No cause is known for the shooting.

Fifteen Years in Prison.  
CHICAGO, Aug. 28.—Timothy Graham, who has been on trial charged with kicking 8-year-old George Ryan to death in a drunken rage, was found guilty today. He was sentenced to fifteen years' imprisonment.

## MATTERS POLITICAL.

Caucuses of the People's Party Held Last Evening—Candidates for Nomination at Tomorrow's Convention.

Some of the Democrats Who Would Like to Win Out at the Caucuses Tonight.

Rumor that Page Morris' Name Would be Presented at Brainerd—Sharry May Run Independent.

Last night the caucuses of the People's party were held and delegates from all precincts were elected. The only place where there was any fight worth mentioning, and it was only a slight ripple, was in the Fifth ward. A number were in favor of knocking out J. H. Baker, but he came out on top. It has been a hard matter to secure a list of the delegates, there being no central headquarters. As nearly as could be learned they are as follows:

First ward—John Jensen, J. S. Martin, A. F. Rudolph, A. N. McGindley, R. C. Mitchell.

Second ward—W. D. Gordon, W. C. Auld, A. A. Brackinreed, A. Hjelin, J. Solen.

Third ward—A. McCullum, J. J. Hibbard, W. H. Holden, E. A. Falstad, Svend Olsen, H. E. Hansen.

Fourth ward—H. Burwell, William Carlson, John Boyer, A. Hanson, F. Osborn, Wade, Shaw, Rusky, Berren.

Fifth ward—J. H. Baker, Anton Ringsted, Gustav Olson, L. A. Paddock, A. C. Parsons, James Johnson, Oscar Christianson, C. B. Harding.

Sixth ward—J. T. Olegard, S. Starkelhurst, Beers, Patinson, Balvin, Cranross, Charles Johnson, P. C. Liden.

Seventh ward—J. Sullivan, J. Delahunt, S. J. Nygren, D. D. McInnis, L. A. Gunderson, C. O. Nelson, C. M. Thomas.

Eighth ward—W. H. Roß, J. E. Retallac, T. Barbrick, M. Nichols, E. G. Wallander, E. Kretting, John Green, P. Pikkeraen.

**The Possible Candidates.**  
A caucus of the Populist delegates was called for 2 p. m. today in the Parsons' block. Some idea of the outcome at tomorrow's convention possibly may be secured after that caucus closes.

It is quite generally conceded that J. C. Mischler will be given the nomination for county treasurer without opposition.

For sheriff, the contest is rather spirited. John Cogan will have his name presented to the convention. E. W. Glass is the choice of the union men, especially the A. R. U. boys, and he will not be without supporters among the delegates. H. B. Moore is being pushed by some of the Scandinavian delegates who support County Commissioner Swenson.

L. C. Giesler would not refuse the nomination for register of deeds. H. E. Hanson, who ran two years ago, has been proposed for a second year. Swan J. Nygren, the popular West Duluth jeweler, stands a good show for the nomination. B. O. Loe, who has served as Amos Shepherd's deputy, is now a Populist and would not refuse to step into the shoes of his old chief.

John M. Martin would be pleased to run for county attorney. L. C. U. Titus is also considered a possible contender.

Some of the Populists would not object to C. O. Baldwin who, it is declared, will be given an office by the Democratic nomination for that office.

W. D. Gordon has been proposed for coroner. He is not a physician, but has a wide knowledge of law. In many cases a coroner is not selected from the medical profession. No marked opposition to Judge Ayer has been noticed.

Mrs. S. M. Bangs wants the nomination for superintendent of schools. Some of the "Pops" favor G. H. MacClelland. Others want Miss Lydia B. Eastart.

W. D. Dean seems to have the inside for a delegation favorable to him in the legislative convention. F. Green, of West Duluth, has been nominated. The range will be given a place on the legislative ticket. L. A. Paddock is mentioned.

The office of clerk of the court is quite popular. John L. Morrison has considerable strength and L. A. Gunderson is favorably mentioned.

Ex-Alderman Perry, who holds a clerkship in the auditor's office has announced himself as a candidate and George H. Vivian, an employee of the Minnesota Iron company at Soudan will undoubtedly come down from the range as a candidate.

J. W. Bull, up to date, has no visible or audible opposition for the nomination for district judge. Interests outside of the Populist party are threatening to take his scalp if he is nominated.

For congress, the convention has issued a call for delegates. Smallwood and Judge A. N. McGindley are favorites. Either would accept the nomination. Several mentioned John Stone Pardee and others have an idea that a man from the western part of the district will be given the prize. Judge McGindley is liable to be the senatorial candidate if he is not named for congress.

A number of dark horses are possibilities, but there is a determination to put up the best man, avoid all rows and wind up the convention in a shower and halo of harmony and enthusiasm.

**THE DEMOCRATIC TICKET.**

Pretty Hard Matter to Predict Just What It Will Be.

Tonight the Democratic caucuses will be held and delegates chosen for the county convention which meets on Thursday at 12 o'clock at the Pavilion. This convention is to elect 23 delegates to the state convention, 20 to the congressional convention, 18 to the legislative convention, 23 to the judicial convention and also to nominate a full ticket of county officers. The call for the legislative convention was issued yesterday. It is to meet at the city hall on Sept. 8. St. Louis county is to have 18 delegates, Lake county 2 and Cook county 1. The county convention has also been called to meet at the city hall on Sept. 13. St. Louis county has 23 delegates, Carlton county 5, Lake county 3 and Cook county 1.

The fight on Map, Baldwin is off and the anti has laid down their arms. The morning paper today contained the information that Henry Truelsen had been scratched

from the Baldwin slate and that of Morris Thomas substituted. This would appear to be "top" thrown out to the Jefferson club, if true, but it cannot be confirmed. The Baldwin men, or Brown men, as the anti are pleased to call them, deny that they are pushing either one, but propose to let them fight it out themselves. John Flood's name is still occasionally heard in connection with the nomination.

For auditor James A. Smith will undoubtedly be the choice. No other name is heard at present. For register of deeds A. C. Barlow seems to have the "cinch" so far, although other candidates may come forward.

The nominee for treasurer will be either C. F. Leland or Alex. S. Wilson. Both are popular Democrats and well-known men. Judge Ayer will have a walkaway for the probate judgeship. He will be endorsed.

For the office of clerk of court there will be the liveliest scramble next to that for the nomination for sheriff. J. J. C. Davis has been a candidate for some time. Within a few days C. F. G. Gray has come into the field and has considerable support.

C. B. King is also mentioned and J. J. Callahan would like to get it.

C. O. Baldwin will be offered the nomination for county attorney and it is believed, will accept it. He is probably the most popular attorney among the Democrats and there is a unanimous sentiment in his favor. John Rustgard was mentioned but he is now classed as a Populist.

For county commissioner T. B. Hawkes will be chosen and another candidate will come from the range. John D. Murphy, of Tower is among those mentioned.

There is not much talk as to the legislative ticket. W. H. Tripp will probably be the choice for senator and one representative will come from the range.

For judge of the district court, Alfred Jacques and H. F. Greene are named. S. T. Harrison has many friends who would like to put him up.

**OFF TO BRAINERD.**  
Party of Ninety Left This Morning—Some Talk of Page Morris.

The Republican delegates and a party of others left this morning for Brainerd on a special at 6:30 o'clock. O. D. Kinney, chairman of the delegation, was not with them, his business preventing his attendance. The Duluth Glee club was with the party. About ninety tickets were sold in all. R. C. Dunn and L. S. Briggs, of Princeton, and H. R. Mallet, of Foreston, representing Miller Lake county, came up and went over with the Duluthians. The Itasca county delegates also came down and went over with them.

Two or three Republican delegates quietly whispered around last evening that the range of Populists would be presented to the convention, probably by the Stearns county crowd, with the expectation of creating a stampede for him. This is hardly to be believed, but it was talked of considerably in Duluth today.

**SHARRY MAY RUN.**  
He is Undecided Whether to Be an Independent Candidate or Not.

Paul Sharry is a possible independent candidate for the office of sheriff. He returned from Minneapolis a day or two ago and found a petition containing many hundreds of names on his desk requesting him to run for the office. He has not made up his mind what to do, but will decide within a few days. It is possible that he wishes to see what the Democrats and Populists are going to do.

## DID AWFUL WORK

Terrible Fire in the Tenement House District of the East Side in New York.

Three Men Lost Their Lives in the Flames and a Fourth, a Fireman, Is Dying.

A Six-Story Tenement Building, Burned and a Dozen Families Driven Out Panic Stricken.

The Building Was Speedily Wrapped in Flames from the Ground Floor to the Roof.

NEW YORK, Aug. 29.—Fire did awful work in the tenement house district of the East Side this morning. The flames broke out in a 6-story "sweat shop" at 226 Irvington street. Three men lost their lives and a fourth, a fireman, is dying. At No. 71 Goreck street a 6-story tenement was burned, a dozen families were driven out panic stricken and \$7,000 damage was done. The Irvington street house was occupied almost solely by sweat shops. The second floor was used as a synagogue and a portion of the third floor as a Hebrew school for boys.

It is claimed that nobody lives in the house but there were at least eight men in the building when the fire broke out. If they were watchmen, as it is claimed, they did their work badly, for three of their number are dead and a fourth cannot be found. He ran away when the alarm was sounded. The names of the dead are not known. One was known only as Hermann, the other two were his sons. The fireman is Timothy Collins. He is internally injured.

The Irvington street fire occurred at 2 o'clock. Its origin is unknown. As the flames burst from the building a man was seen to rush from it and run in an opposite direction. Several persons called to him, but he paid no heed and was lost sight of. The flames started in the tailor shop of Francis Levine. Soon after the fire began Levine's wife and Hermann Egerson, was climbing down the fire escape. When he got to the first floor he jumped to the ground. He was followed by three others, who came from different floors.

Long before the first engine reached the place, the building was wrapped in flames from the ground floor to the roof. The building was dangerously located, being in the center of the Hebrew tenement district with tall, crowded tenements on either side. Three alarms were sounded, ladders were set up against the burning building but they only reached to the third floor.

It was supposed that everybody was out of the building but a youth of 18 years old appeared on a flame enveloped fire escape and begged for help. Two people below shouted encouragement to the lad, but aid could not reach him and the crowd below watched as the boy seemed to be roasting alive.

Fireman Timothy Collins attempted to rescue him. He had gone up the ladder but a few moments when the boy climbed over the escape and dropped to the ground. He turned in the air before he fell squarely on the shoulders of Collins. Down went both to the pavement, the boy killed by the fall. The fireman was unconscious and injured internally. He will probably die. The firemen worked for the roofs of the buildings on all sides and succeeded in containing the flames to the one building, but that was gutted completely.

After three hours' work the firemen entered the building by the roof. In the shop of Joseph Schackman, the room from which the lad had jumped to death, the firemen found the bodies of two men. They were lying side by side on a little tailor's bench and had evidently been asleep when overcome by smoke. They were father and son, and the boy who jumped was another son. The man was about 45 years old and the boy about 16. Both bodies had been scorched by the flames but their faces were recognizable. The three ways slept in the shop. They had no other homes.

Schackman, their employer, knew the elder man as Hermann but did not know his last name nor that of the boys. He was much excited and said he could not find out the names of the boys. The damage to the building was about \$600. The tenants each lost about \$50. The fire marshal will investigate the origin of the fire, as its cause seems shrouded in mystery.

While this fire was in progress three alarms were sounded for another in a five-story "double decker" tenement at 31 Goreck street. The fire was decidedly suspicious. It originated in the hallway beside the door of Josephine Kean, a boarder in the janitor's family on the first floor.

The entire building was soon enveloped in flames. All the tenants were aroused and panic stricken. All escaped unhurt. The loss will not exceed \$17,000; about \$2000 of this amount is contributed by the tenants. There is talk of incendiarism and an investigation will be had in this case also.

**Fight Among Tramps.**  
SOUTH BEND, Ind., Aug. 29.—A desperate fight occurred last night on a Lake Shore & Michigan Southern freight train between here and Laporte, Ind. Three men armed with revolvers attacked the others, throwing one from the train seven miles from here. Another was robbed and one of badly hurt, and a third was shot.

**An Ex-Consul Dead.**  
JEFFERSON, O., Aug. 29.—Hon. W. C. Powells died yesterday afternoon of paralysis in his 88th year. He was in newspaper work since 1830 until 1874 when he was appointed by President Grant, United States consul to Quebec.

## GOVERNOR WAITE ARRESTED.

He and Others Are Accused of Opening a Letter.

DENVER, Aug. 29.—A warrant was issued late yesterday afternoon for the arrest of Governor Davis H. Waite on the serious charge of opening and retaining letters addressed to Mrs. Likens, formerly matron at police headquarters.

Warrants were also issued for the arrest of President Dennis Mullins of the police board; Hamilton Armstrong, chief of police, and Kate Dwyer, matron at police headquarters. All the parties were arrested, pleaded not guilty and were released on their personal recognizances.

The arrest of Governor Waite and officials of the police department on a charge of detaining and opening a letter intended for ex-Police Matron Likens has not caused much excitement, being generally regarded as a mere political move. Populists who are working to prevent the re-nomination of Waite declare that the police department desire to have the governor re-nominated, believing he will be the weakest candidate the Populists can name, caused the arrest for the purpose of arousing sympathy for him in his party and stampeding the convention.

On the other hand the Republicans say it is purely a political fight between the Cleveland (White Wings) Democrats and the Populists. The letter in question was enclosed in an envelope and was addressed Police Matron Denver, and it was opened by Matron Dwyer.

**Were Tapping the Wires.**  
ST. LOUIS, Aug. 29.—Frank Keam and George Hastings were arrested last night while in the act of tapping the wires of the Western Union north of St. Louis. The men deny the charge, but why they had a complete telegraphic outfit in the possession they fail to explain. They will not even say where they live. The detectives hold that they have captured the principals in a grand scheme to beat the foreign books at the race tracks today.

**Two Children Cremated.**  
SANTA MONICA, Cal., Aug. 29.—By the accidental upsetting of a candle in a wooden dwelling here, the 5-year-old son of Mrs. R. Grimes and the 4-year-old daughter of Mrs. Dominguez were burned to death. The mothers of the children were out walking. Upon their return they found the charred remains of their babies among the ashes which alone remained of their home.

The vote stood throughout the 866 ballots yesterday: Burke, 37; Poindexter, 34; Abbott, 12; Hardy, 1.

The new order was formed shortly after the original Iron Hall passed into the hands of a receiver.

## A Timely Aphorism.

Chicago Post: A wise man will eat crow rather than starve.

## TAWNEY NAMED.

The First District Congressman Was Renominated by the Republicans at Winona This Afternoon.

Senators Davis and Washburn, Governor Nelson, Hon. C. A. Towne and Other Distinguished Republicans Present.

Fire Has Practically Wiped Out the Town of Vesper, Wis., Making Many People Homeless.

The McMillan Block in Minneapolis Scorched and Brooks Bros' Lumber Yard at St. Paul Burned.

ST. PAUL, Aug. 29.—A special to the Dispatch from Winona says: The Republican state campaign was opened in Winona in a most auspicious manner today in connection with the congressional convention which nominated Hon. James A. Tawney for congress in the First district. Never in the history of Southern Minnesota Republicanism have so many noted leaders been present at a single gathering. The list included Senators Davis and Washburn, Governor Nelson, Hon. C. A. Towne, J. T. Koerner, Dar Reese and most of the nominees on the state Republican ticket.

The notables arrived on the 11:15 Milwaukee train from the north and were met by a committee of leading local Republicans. The honored guests were escorted in carriages to the Winona, where an informal reception, lasting for an hour, was held.

The convention met at the opera house at 1 o'clock. Long before that hour, however, every seat except those reserved for delegates had been taken. The banquet was set aside for the exclusive use of the delegates. Some 200 seats were provided on the stage, these being occupied by the honored guests, leading local Republicans and members of the G. A. R.

It was a few minutes after 1 o'clock when Hon. J. M. Diment, of Owatonna, called the convention to order. After completing a temporary organization and appointing a committee on credentials, permanent organization and resolutions, a recess was taken.

After the recess and upon the completion of the permanent organization, the committee on resolutions submitted its report, which was adopted amid much enthusiasm.

Hon. J. M. Diment, of Owatonna, made the pleasant duty of placing Hon. James A. Tawney's nomination as the Republican candidate for congress to succeed himself in the First district.

The nomination was warmly seconded by J. A. Leavelle, of this city, and was thereupon made unanimous. As Mr. Tawney stepped to the front to accept, he was greeted with thunderous applause and cheers.

After the outburst had subsided, he spoke at some length, in eloquent words discussing the Republican principles.

## TOWN OF VESPER BURED.

It Was Practically Wiped Out With a Loss of \$150,000.

MILWAUKEE, Aug. 29.—A special to the Wisconsin from Marshfield, Wis., says: The Port Edward train arriving here at 4 o'clock this morning bringing additional news of the burning of Vesper. The town is practically wiped out, estimating a loss of about \$150,000, as follows:

About 9,000,000 feet of lumber and the large saw plant, valued before the fire at \$100,000, were destroyed. Seventeen dwelling houses, two box cars and the depot of the Chicago, Milwaukee & St. Paul railroad and three box cars of the Port Edwards, Centralia & Northern railroad. The stock, lumber and mills of the Sherry-Cameron company is reported to be fully insured.

The fire that wiped out Vesper has been burning in that vicinity the last two weeks, but at no time did it have a threatening appearance. The high wind yesterday drove it beyond control, and like a whirlwind, it broke over the little place in such rapidity, rendering all attempts to save property useless.

Seventeen families of employees in the mills are homeless, and as the timber contiguous to the town is used up, the place will never be rebuilt. A relief train was made up here yesterday afternoon but could get no nearer than a mile to the doomed town.

## FIRE IN MINNEAPOLIS.

The McMillan Block Seriously Burned and Two Men Injured.

MINNEAPOLIS, Aug. 29.—At 1:10 this morning fire in the McMillan block at First avenue north and Second street caused a loss of \$8000 and two men were injured. The fire broke out in the rooms of the Diamond Lithographing company and caused damage to the company's plant amounting to \$7000 and a loss on the building of \$1000. The fire is the third in this block inside of a year and a half. Gus Peterson, janitor of the building, was badly cut in the arms by falling glass, and Thomas Eastman, a fireman, had his foot run over by one of the engines, sustaining serious injuries.

## FIRE IN ST. PAUL.

Brooks Bros' Lumber Yard Destroyed by Fire This Afternoon.

ST. PAUL, Aug. 29.—Brooks Bros' lumber yard, near the corner of University and Prior avenues, in Union Park, was destroyed by fire this afternoon. At 3 o'clock it was thought that the row of buildings adjoining the yard on University avenue would be saved, but that all the lumber in the yard and the small

mill operated there would be destroyed, entailing a loss of \$25,000, covered by insurance.

**Suicide at Sheboygan.**  
SHEBOYGAN, Wis., Aug. 29.—Sheboygan had another suicide at 6 o'clock last evening. Ole Ellison, a fisherman, was found hanging to the rafters of his fish shanty. He was one of the old-timers on the lake and had for years run a fish tug.

**New Style of Campaigning.**  
ST. PAUL, Aug. 29.—One of St. Paul's most prominent and talented young singers, Miss Aurelia Phillips, has been engaged by the Populist state central committee of Wisconsin to appear at several concerts which are to be given during the campaign in company with other artists of wide fame. Two concerts are to be given in Milwaukee, one at Racine and one at some place yet to be designated.

**Money for High Schools.**  
ST. PAUL, Aug. 29.—Auditor Biermann yesterday issued warrants to seventy-three high schools of the state for \$420 each under the law passed in 1881 for the encouragement of higher education. There are still eight or ten schools which have not reported.

## MINNESOTA STATE FAIR.

J. Newton Nind Is in the City Today Forwarding Its Interest.

The Minnesota state fair opens on the grounds of the State Agricultural society at Hamline on Sept. 10 and is to continue during all the week. For that week the railroads between Duluth and St. Paul will make a rate of one fare for the round trip. J. Newton Nind, who was in town today, reports that the way entries and applications for space are coming in indicates that the fair is to be the best and most complete in the history of the society. The crops in Minnesota are no where better than in the southern part of the state where diversified farming has taken the firmest hold and the farmers from that locality in particular are going to send up their products in large quantities and turn out in full force.

The stock exhibit is to be particularly fine. No fair was held last year, and the Minnesota breeders are anxious to measure results accomplished during the past two years. All the Minnesota stock men like N. P. Clarke, of St. Cloud, Wilcox & Leggett, of Benson, the Cosgrove Live Stock company, of Le Sueur and H. F. Brown, of Minneapolis, are to exhibit their herds and cattle, sheep, swine and horses are to be brought from all over the country.

The Iowa state fair occurs at Des Moines the week preceding and the exhibitors there will bring a large load of stock to the Hamline grounds as the second stand on a circuit of fairs which will include the Wisconsin state fair at Milwaukee, the Illinois state fair at Springfield and the big fair and exposition in St. Louis.

Other departments promise to be quite as complete. Minneapolis is to have an exposition this year, and the Minneapolis manufacturers and merchants will join forces with the St. Paul men in making the department of mercantile displays complete and varied. The exhibit made by Minnesota at the World's fair, with the exception of the educational department, in the recent fire which destroyed the Coliseum building at the state university, has already been placed in the main building at Hamline.

In addition to the features of the fair, which will typify the state's progress and prosperity—never more prominent than this year—there will be an abundance of amusement. There will be five days of racing and trotting contests for purses, aggregating \$500; Broncho John's Wild West show will give daily exhibitions; Jenks' Pony hippodrome will present chariot and hurdle races every day, the steeds being East Indian and Shetland ponies to the number of twenty-five and on four days there will be balloon ascensions. Two of these ascensions are to be double ascensions, and one of them a race between two balloons which will be sent off at a given signal and from which the aeronauts will jump also at a given signal and descend in their parachutes.

Tuesday, Sept. 11, will be good roads day. A special exhibit is to be made under the auspices of the association for the improvement of roads, and how to build roads and of what to build roads. A regular surprise party luncheon on that day. Saturday, the last day of the fair is to be Women's day, on the theory perhaps that the women generally have the last word, and on that day the admission is to be 25 cents. A speaker of national repute is to plead the cause of the women on that day.

The managers of the fair are counting on a large attendance with the knowledge that the people are beginning to wake up from the business lethargy which has prevailed for so long a time and are disposed to indulge themselves in a little recreation.

## Grand Stand Burned.

## THE POPS MEET

The Populist County Convention Called to Order at the City Hall Early This Afternoon.

After Various Names Had Been Suggested, John J. Jensen Was Unanimously Chosen as Temporary Chairman.

R. C. Mitchell Was Elected as Temporary Secretary with Swan Nygren as the Assistant Secretary.

Speeches by Mrs. O. P. Stearns, Capt. Smallwood and Judge McGindley While Committees Conferred.

The Populist county convention was called to order at 1:30 this afternoon in the city hall by John J. Jensen. The call was read and L. Paddock was nominated for chairman. J. H. Baker named Jensen. A chorus of seconds was the result. Mr. Paddock named R. C. Mitchell. A delegate said that he wanted Mr. Paddock for the reason that he was not acquainted with the delegates and would preside fairly. A. R. J. Jensen named J. H. Baker. He positively declined. As also did Mr. Paddock.

Mr. Jensen said that he did not want to preside. He then called for a vote on Mitchell. One delegate favored him. A loud cry of "No" went up on the other hand.

Frank Osborne arose and moved that Jensen be chosen chairman. The motion prevailed amidst loud applause and no dissenting voices.

Mr. Jensen then proceeded to tell the objects and aims of the party and convention. He told the kind of men wanted, pledged for acts of wisdom, harmony and loyalty to the ticket. He felt no fear but that the Populists would vote all right, but pleaded for a first-class ticket for the effect that it would have on the old parties.

R. C. Mitchell was nominated for temporary secretary. Swan Nygren declined the nomination and seconded the nomination of Mitchell who was elected. Nygren was then chosen assistant secretary.

On motion of S. W. Ruger, a committee of five, Messrs. S. W. Ruger, J. H. Baker, W. D. Gordon, A. McCollum and Thomas Morris was appointed on credentials. A committee of five, Messrs. J. D. Wade, J. D. Nichols, L. A. Paddock, E. McInnis and A. C. Parsons was next appointed on resolutions.

Speeches were made while the committees were out by Mrs. O. P. Stearns on behalf of Mrs. Bangs for superintendent of schools, Capt. W. H. Smallwood and Judge McGindley.

John M. Martin spoke briefly and then the report of the committee on credentials was adopted. G. B. Douglass was added as a delegate from New Duluth and George Westcott from Ely.

The committee on resolutions reported, endorsing the state platform and demanding that corporations pay employees in full every two weeks; that county officers be salaried without fees; that a law be enacted preventing corporations from discriminating against employees; that Populists subscribe to favorable papers; that mining inspectors be elected by direct vote of the people. The report was adopted.

A committee on order of business reported, favoring nominations for the offices in the following order: Treasurer, attorney, clerk of district court, register of deeds, auditor, sheriff, county superintendent, county commissioner, coroner, judge of probate, selection of twenty-seven delegates to congressional convention, delegates to the judicial convention, appointment of county and legislative committees, nomination of two county commissioners. This was adopted.

Paddock moved that every candidate get up on the platform and declare himself a good Populist.

This brought on considerable discussion. It was finally resolved that each candidate be required to subscribe to the platform.

## THEY WENT VISITING.

Odd Fellows of Duluth Surprised Their Two Harbors Brethren.

A party of twenty-eight of the members of Central Link lodge of I. O. O. F. went to Two Harbors last night on the private yacht Picket. They left Duluth about 6:15 and reached Two Harbors about 9:30 and marched directly to the Two Harbors lodge room where they surprised the three link brethren by walking into their hall just as adjournment was about to take place. Music, singing and speaking followed and the visitors then invited the Two Harbors brethren down to the dock where they had a regular surprise party luncheon which was prepared by the I. O. O. F. commissary, T. W. Streeter.

Messrs. Patterson, Wright and Wood of Duluth, and Brewster, McDonald and Gillon, of Two Harbors did most of the talking. The party returned to Duluth at 1 o'clock this morning. Going out the weather was a little squally and nearly the entire party was seasick. The affair was thoroughly enjoyed by all participating.

# OFF FOR VACATIONS

President Cleveland Left Washington Today for New York on His Way to Gray Gables.

Nearly All the Members of the Cabinet Are Also Preparing to Take Short Vacations.

Secretary Gresham Detained by Foreign Questions and Secretary Carlisle by Changes in the Tariff.

WASHINGTON, Aug. 20.—President Cleveland left Washington via the Pennsylvania railway at 7:20 o'clock this morning for New York on his way to Gray Gables. His companions on the trip were Secretary Lamont, who goes to join his family at Bay View, Long Island; Private Secretary Thurber, who is bound for Marion, Mass., where his family are summering, and a gentleman whose name was not familiar to the railroad officials. The party arrived at the station a few minutes before 7 o'clock and proceeded at once to the private car of President Roberts which was attached to the regular New York train.

The president took a seat on the rear platform of the car, and with the other members of the party spent the fifteen minutes in watching the arrival of other early travelers. There was a good sized crowd in the station when the president arrived there, most of whom were encampment visitors waiting for trains to go home. Few knew the president was expected and fewer still recognized him as they passed the coach.

Nearly all the members of the cabinet are preparing to take advantage of the adjournment of congress to secure vacations. It is probable that within a very short time Washington will be almost deserted by higher officials of the government. Secretary Herbert is away already making a tour of inspection of the government navy yards and stations along the North Atlantic coast.

Secretary Lamont's respite will be with his family at Bay View, Long Island, and all that prevents Secretary Gresham from arranging to temporarily put aside the business of the state department is that there are a few troublesome foreign questions demanding his presence here for a while at least. He will shortly, however, take a vacation which will be spent in part in fishing.

Attorney General Olney will spend his vacation in and about Boston. He has decided that it is too late in the season to open his summer residence at Falmouth, Mass., and so with Mrs. Olney, who is now in Petersburg, N. H., he will remain quietly at his Boston home during the three weeks he expects to be absent from Washington. He hopes to be able to leave here today or tomorrow.

Secretary Carlisle has made no arrangements for a vacation, and it is expected that the administration of the new tariff act may keep him here for some time yet.

Secretary Smith will spend ten days or a fortnight in Georgia. He has just returned from a short vacation at Ocean City, Md., and will leave again early next week, probably Monday evening, for his state. He will visit Athens, where his family returned last Monday, and Atlanta. Georgia Democrats expect him to make several speeches while in Atlanta.

Postmaster General Russell disposed of a good deal of current business yesterday and left last night for Buffalo, where Mr. Russell returns from Kennebunkport, Me. He will spend all of his vacation in New York state and expects to resume his duties at the postoffice department during the first week of October. During most of his absence, First Assistant Jones will be acting postmaster general.

Secretary Morton, of the agricultural department, will spend his vacation in Europe. He has planned to leave in the middle of September and his itinerary includes a visit to Germany, England and France. He will be away five or six weeks. Mr. Dabney, the assistant secretary, will be the acting secretary during Mr. Morton's absence.

### DESPERATE FIGHT IN CHICAGO.

One Man Killed, Two Fatally Hurt and Five People Injured.

CHICAGO, Aug. 20.—A desperate fight which necessitated the turning in of a riot alarm and the calling out of three patrol wagons filled with police, occurred last night in front of 4117 Ashland avenue. One man was instantly killed, two were fatally hurt and four men and one woman seriously injured.

Dead—Herbert Kay, neck broken with paving stone and stabbed in breast. Fatally injured—William Dunworth, left eye knocked out, skull fractured; Phillip McGrath, skull fractured.

Seriously injured—James Dunworth, right arm broken in six places; Pat Cassidy, left arm badly cut; John King, head cut; Michael Donovan, head cut; Mrs. Lizzie Dunworth, right arm cut.

At 4117 Ashland avenue Mrs. Cook has a saloon on the first floor and the Dunworth family with Cassidy, who is a brother of Mrs. Lizzie Dunworth, reside on the second floor. The Dunworths had a lodger named John Marshall, who was too deliberate in paying his rent to suit the Dunworths. On Sunday Cassidy attempted to collect the rent by force and was badly beaten by Marshall.

Last night Cassidy and Marshall resumed their fight, and the latter who had with him several friends chased Cassidy into the street. The fight was warm, up nearly when John Dacey, a friend of Cassidy, came along. He had a revolver and tried to shoot Marshall. Mrs. Dunworth came to the rescue of Dacey and Cassidy with paving stones.

Just at this time Ray and Donovan came along in a buggy. How they became mixed up in the fight nobody knows, but they were in it, as they saw it. By this time a dozen men were in the fight, on each side and fists, knives, revolvers, clubs and stones were all in active operation. The police arrested half the neighborhood and carried the wounded to the hospital.

### SHE WANTS A SEPARATION.

Willie Vanderbilt's Wife Intends to Sue Her Husband for Divorce.

NEW YORK, Aug. 20.—A dispatch to the World from Paris says there is no doubt that Mrs. William K. Vanderbilt has consulted friends as to the advisability of instituting proceedings of divorce against her husband.

"The domestic difficulties between Mr. and Mrs. Vanderbilt," the dispatch says, "reached almost a climax last spring when the party on the yacht Valiant went up in the Mediterranean."

About ten weeks ago Cornelius Vanderbilt went to London to stop further proceedings but was unsuccessful. Mrs. Vanderbilt, who is represented by Col. William Jay, of New York, has now returned to Germany. A proposition, it is said, is made to sue Mr. Vanderbilt for \$500,000, the custody of the children and the possession of the three houses at Newport, Islip and in New York.

The fight on the yacht offered no objection but would only consent to terms less liberal than those asked by Mrs. Vanderbilt. She has refused his proposition and the discussion is postponed until the arrival of Col. Jay in Paris. Mr. Vanderbilt declined to discuss the matter further than to say that he had instituted no proceedings for divorce.

## THE VALUE OF WHEAT MAKING THINGS PLAIN

Bulletin Issued by the Agricultural Department on the Use of Wheat as Animal Food.

Suggested by the Important Change in the Comparative Prices of Wheat, Corn and Oats.

The Bulletin Advocates the Use of Screenings and Imperfect Wheat as Food for Animals.

WASHINGTON, Aug. 20.—A bulletin of wheat as animal food has been issued by the agricultural department. It was compiled by D. E. Salemon, chief of the animal industry bureau of the department and is in response to inquiries as to the value of wheat for growing and fattening animals, suggested by the important change in the comparative prices of wheat, corn and oats. The bulletin advocates the use of screenings and imperfect wheat as animal food and the placing of only the best wheat on the market.

A statistical table shows the near approach chemically of 200 pounds of wheat to the German standard ration for growing cattle from 6 to 12 months of age, and the fact that thirty-three and one-third pounds of wheat contain nearly the feeding standard for fattening cattle than does the same quantity of corn. Equal parts of wheat and corn should be fed to growing animals, fattening animals than either of these grains alone. For growing animals corn is plainly not so suitable as is wheat or oats.

When wheat and corn are the same price per bushel says the bulletin, "it is possible to feed on wheat and sell corn. First because wheat weighs 70 pounds heavier per bushel than corn; secondly, because wheat is weight for weight an equally good grain for fattening animals and better for growing animals; and thirdly, because there is much less value in fertilizing elements that come from the farm in corn than in wheat. Wheat should be at first fed in small quantities, and when possible be mixed with some other grain, and care taken to prevent any one animal from getting more than the quantity intended for it. Precautions are especially necessary when wheat is fed to horses."

The best form in which to feed wheat is to roll or grind into a coarse meal. From Canadian experiments it appears that wheat, when fed in this form, is more valuable than in any other form. YOUNG GIRLS entering womanhood ought to have just the special help that Dr. Pierce's Favorite Prescription can give.

They need to be started right. The "Prescription" aids and promotes the proper functions, corrects the delicate weakness and derangements that might become chronic, establishes regularity and health, lessens pain.

They want a nourishing, supporting, strengthening tonic, such as an experienced physician has especially prepared for the female system, in the "Prescription."

In every "female complaint" and weakness, and in all nervous conditions, if it doesn't benefit or cure, the money will be returned.

Miss MARGARET JACOBSON, of Duluth, St. Louis, Minn., writes: "I was lying sick for some time with female troubles, and my friends gave me no good. Death was approaching. I heard of your wonderful medicine, and I bought two bottles of it, and before I had taken the last, I got entirely well. I am still enjoying good health, and expect to praise your medicine every where I go."

## This Matter of Darning.

doesn't amount to much, with the women who use Pearline. Most of it has to be done because you persist in rubbing things over the washboard so. You have to, to get them even passably clean, if you wash with soap in the old way. Use Pearline and you'll save the darning. You haven't rubbed the things to pieces, and you won't have to mend them. And another kind of darning won't suggest itself, either, for you haven't tired yourself out to the cross point with the

hardest of women's work. Peddlers and some unscrupulous grocers will tell you, "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled. If your grocer sends you an imitation, he loses—and it sticks.

Joe Sheehy is in active training for his fight with Kellor on Sept. 23, and is getting into prime condition. He is showing some astonishing proficiency in punching the bag, and if he does half as good work in the ring as he seems capable of doing in the training paddock, he will be a hard man to beat. Pugilistic experts say that Joe is the best heavyweight bag puncher ever seen at the head of the lakes. His hand and arm movements are incredibly swift and he is a tremendous hard hitter.

Kellor is also said to be doing some hard work and is training very faithfully.

The fine new sawmill of the Orienta Mill company at the mouth of Iron River is practically completed and will commence sawing lumber about Sept. 5, although a final test of the machinery will be made next Saturday. Hynes is president of the Orienta company, and while in the city this morning he reported things rushing at the new little town. ## FOUND THE WOMAN'S HAT.

The Name of the Maker on the Inside Disappeared During the Night.

The hat supposed to belong to the Oat-ka beach murdered woman was found yesterday afternoon by the Park Point policeman and sent to police headquarters at once. It was much dragged by contact with the wet sand, but showed signs of being a very tasty piece of millinery. The name of the maker was printed on a small slip of cloth sewed to the interior lining, and it was expected that today, when it was sufficiently dried, that it would become legible under a magnifying glass, but this morning the piece of cloth was missing, with no clue to the taker.

The mysterious woman who viewed the remains Monday and betrayed such emotion and then rushed from the place has been found and her story elicited. She claims to recognize the body as that of a former friend and gave the certificate the name and address of the corpse. At the request of the authorities these names are withheld until an answer, favorable or unfavorable to identification is received.

An attempt to find the woman's hand bag and purse is being made today and the sand on the beach is being searched with pitchforks in hopes that if the missing articles are buried there they will be brought to the surface.

Photographer Thiel has several hundred of the woman's pictures ready for the authorities who will send them to a number of places, together with a close description of the body.

Trying to Sell Venison.  
J. C. DeWitt was run in by Game Warden Fullerton last evening just as he had offered to sell the freshly-killed carcasses of two fine deer to Col. Yotson, of the Saddle Creek. He was brought up in the municipal court this morning and pleaded not guilty, and his trial will take place Friday at 10 o'clock. Bail in \$50 was required and furnished. DeWitt says he got the venison from a Wisconsin game warden, who told him to sell it in Duluth, and he says he can prove this story.

Thomas Clark, a plain drunk, went up for ten days to Sharv's resort on the hill.

Missabe Road and P. R. McDonnell Are Defendants in Damage Suits—Calendar Contains 235 Cases.

The September term of the district court will be the largest ever held in the county. The term commenced last November, with 230 cases, broke all previous records. The September term has 235 civil cases. Many of them are long ones, and it is probable that the three divisions of court will be kept busy nearly if not quite up to the November term.

The term of district court will contain the usual large number of personal injury suits. Several large ones were filed this morning. H. L. McCleod wants \$20,000 from the Duluth Street Railway company. He alleges that on July 16, 1892, he was working for the company operating a buzz saw, sawing cedar blocks. The saw was defective and after a number of eccentric actions wound up by sawing off McCleod's hand.

Hans Hanson also thinks he has a cause of action against the street railway company. He says that he boarded a car in the West End, intending to go to West Duluth. The conductor informed him that he was on the wrong car, and between two blocks is alleged to have pushed Hanson from the car. Hanson was propelled by the momentum of the car, and turned several somersaults, during the execution of which he was battered up a good deal. He thinks the experience was worth \$10,000 to him.

Otto Gulberg is alleged to have tripped on a plank on Sixth street north, West Duluth, and falling to have driven a spike into his left eye. He sues P. R. McDonnell, the contractor who was improving the street, and the city for \$500. Michael J. Mitchell, a brakeman on the Missabe road, says that he was knocked down between two cars he was attempting to uncouple and one of them ran over his foot. He says the accident was due to the carelessness of the engineer in backing and he wants \$10,000.

He also charges the railroad company with taking advantage of him while he was drunk and obtaining a release of all claims from him.

It is not very often that a lawyer is "confided" by his client, and that what makes a suit filed this morning by Attorney A. E. McManus against Antoine LeDuc peculiar. He says that LeDuc represented to him that he had some purchasers who would give \$20,000 for certain iron lands in Itasca county, and he wanted McManus to advance \$500 for an option on the land. McManus did so, but LeDuc and his purchasers did not materialize. He sues for \$500 and \$50 for his time.

Some time ago George F. Piper transferred a section in 43-15 to N. J. Upham and N. C. Otis for \$48,000. He in turn transferred quarter sections to Henry S. Patterson sold him some Duluth property for \$6500. He found out afterwards that part of the property was on the right-of-way of Piedmont avenue, and he wants \$25,000 back.

By order of the court, Leonidas Merritt yesterday filed his bill of particulars in his suit against the Missabe road.

## FIERCE BATTLE.

Chilcat Indians in Alaska Drink Smuggled  
Liquor and Dance and Have a  
Pitched Battle.

Six Men Were Murdered and a Large Number  
Frightfully Wounded During  
the Bloody Fight.

They Then Threatened to Annihilate the  
White Settlers Who Are Living in  
the Vicinity.

Mexican Troops Caught in Ambush by  
Yaqui Indians, and Twelve Killed  
and Six Wounded.

PORT TOWNSEND, Wash., Aug. 30.—  
The City of Topeka, which arrived from  
Juneau, gives details of a fierce battle  
among the Chilcat Indians, which re-  
sulted in six men being murdered and a  
large number wounded. The Indians were  
drunk and, being armed, did great  
damage to themselves. A few days pre-  
vious to the fight two Canadian sloops  
from British Columbia arrived at Chil-  
cat laden with a vile quality of liquor.  
Large quantities were soon dispensed  
with in exchange for furs, etc. Then be-  
gan a scene of savage orgy.

The Indians are naturally savage and  
hostile, and when affected by whisky  
come wild demons. Immense fires were  
started, and several hundred Indians as-  
sembled to drink liquor and dance. To-  
morrow morning a dispute arose over a  
trivial matter, which resulted in the  
leader of one faction being stabbed to  
death. The Indians then divided into  
two parties and a battle commenced.  
The two whisky smugglers, unobserved,  
slipped away from the scene.

No white people knew the incidents of  
the battle. Settlers living a few miles  
distant heard yelling and, surmising the  
origin of the trouble, dared not venture  
to the neighborhood until late in the  
afternoon of the next day. Dead and  
wounded Indians were lying all around  
the village. Some were frightfully mu-  
tilated and others were suffering agonies  
from their treatment.

A small band of survivors, elated with  
success and thirsting for more blood,  
had gone down the beach threatening to  
return and embark a crowd of savages  
and annihilate the white settlers in the  
vicinity. Just before the Topeka sailed  
from the harbor, Deputy Collector of  
Customs Slater and a posse had arrived  
on the steamer *Wrestler* and started for  
Chilcat to arrest the smugglers, seize the  
liquor and quiet the Indians in Sitka.

The Chilcat Indians are a hostile tribe.  
Only during recent years have they per-  
mitted the white traders to enter their  
country. Frequently they interfere with  
miners crossing the divide into the Yukon  
country. On several occasions the gov-  
ernor has had to send a revenue cutter  
there to suppress disturbances. Early  
this spring on different occasions two un-  
known white men coming down the coast  
in open boats were murdered. There are  
now two or three Indians in jail charged  
with murders. The Chilcats believe in  
witchcraft and several women have  
been burned to death in recent years  
charged with being witches.

**AMBUSHED BY INDIANS.**  
Fight Between Mexican Troops and Indians  
and Many Killed.

SAN DIEGO, Cal., Aug. 30.—Details of  
another ambush of Yaqui Indians on  
Mexican troops have been received. On  
July 28, forty-five men of the Fourteenth  
battalion left a place called the Pilares  
for Cruz de Piedra and from there start-  
ed on July 30 for Rio Yaqui, near the  
outpost of Los Guasmas.

They were ambushed in a thickly  
wooded part of the road by a party of  
about 100 Indians, who had divided  
themselves on each side of the road. At  
the first fire delivered at pistol range,  
nine federals dropped. Capt. Gomez, in  
command, rallied his men on the de-  
fensive a little outside of the ambush.

When the Indians attacked, the troops  
furiously resisted, but were repulsed more  
than once.

The fight lasted more than an hour  
and a half, the federals remaining in  
possession of the field. While some of  
the Indians were fighting the remainder  
stole the baggage and money and as  
much of the ammunition of the troops as  
they could carry off. It was noted that  
two Indian women and six or eight In-  
dian boys were among the combatants of  
the federals.

Twelve men were killed and six  
wounded. The wife of a sergeant was  
killed and a little child of 8 and a boy of  
9 were wounded slightly. Four Indians  
were killed and twenty-seven slightly  
wounded and taken prisoners. Capt.  
Gomez will be court martialed at  
Torin.

**CLUBBED AND ROBBED.**  
An Aged Farmer in New Jersey Robbed by  
Masked Men.

PHILADELPHIA, N. J., Aug. 30.—Three  
masked men entered the house of Philip  
Reise, an aged farmer near Carpenter-  
ville, N. J., last night, and, covering him  
with revolvers, demanded his money.

Reise, who was doing on a chair,  
showed fight, but was overpowered and  
clubbed almost to death. The robbers  
secured a gold watch, a lot of silverware  
and \$500 in gold, which was hidden away  
in an old trunk.

Reise's wife and daughter were so ter-  
rified that they were unable to make an  
outcry. There is no clue to the robbers.

**Fell on His Sword.**  
ASHVILLE, N. C., Aug. 30.—Louis  
Behr, late of the navy, was committed to  
custody here by falling on his sword, inflic-  
ing injuries from which he died some  
hours later. He was in poor health and  
had not long to live.

## CONVENIENT TO PENSIONERS.

Fourth Class Postmasters Can Now Afford  
Pension Vouchers.

WASHINGTON, Aug. 30.—Hereafter the  
fourth class postmasters will have an  
other source of revenue. He now can  
act as a notary public for pensioners and  
witnesses in pension cases only, and can  
charge the pensioner not exceeding 25  
cents for each voucher to which he  
affixes the seal of his office.

The new authority and emoluments  
for the village postmaster sprung from  
an act approved Aug. 23, which "re-  
quires, empowers and authorizes" them  
to administer any and all oaths re-  
quired to be made by pensioners and  
their witnesses in the execution of their  
vouchers with like effect and force as  
officers have, and the postmaster shall  
affix the stamp of his office and his sig-  
nature to such vouchers.

The law includes all manner of pen-  
sion cases, in which an oath is required,  
including vouchers for the regular quar-  
terly payments. This authority to the  
fourth class postmasters does not mean  
that a notary who has heretofore taken  
pensioners' depositions can do so no  
longer; on the contrary it is stipulated  
explicitly that they may do so.

The law was passed at the instance of  
congressmen representing country dis-  
tricts which are but sparsely settled and  
to the satisfaction of the pensioners.  
The pension office is anxious they should  
have notice of the changed conditions  
made by the law.

## THE NORTH WEST RELEASED.

The Big Steamer Grounded But Sustained No  
Damage.

AMHERSTBURG, Ont., Aug. 30.—The  
big passenger steamer *North West*,  
which went aground at Bar point light-  
ship yesterday afternoon, was released  
this morning. The tug *Champion* reached  
the steamer at daylight, and as the water  
had raised she had no difficulty in pull-  
ing the *North West* off.

The cause of the grounding of the  
steamer was thick weather and the part-  
ing of one of her rudder chains. She  
was going under check at the time and  
did not ground very hard. The vessel  
sustained no damage as she was on the  
sand bottom.

She passed Amherstburg at 7:30  
o'clock and was assisted up the river by  
the *Champion*.

## TROUBLE WITH HIS WIFE.

A Railroad Treasurer Arrested and Fined at  
Cleveland.

CLEVELAND, Aug. 30.—Henry T. San-  
ford, the treasurer of the Cleveland,  
Lorain & Wheeling Railway company,  
was arrested Monday evening at his  
residence on the charge of intoxication.  
Mr. Sanford gave the name of Alexander  
Lorain and was fined \$5 and costs  
Tuesday morning.

The cause of Sanford's arrest seems to  
have been disorderly conduct. Some  
shooting had been heard in the house  
and the police were called and arrested  
Sanford. The wife admitted that trou-  
ble existed between herself and husband  
and that she had already begun divorce  
proceedings.

## The Knights of Pythias.

City, Pa.; supreme keeper of records  
and seal, R. L. C. White, of New York;  
supreme recorder, J. W. Thompson, of  
New York; and supreme treasurer, J. C.  
Hinz, of Chicago.

## A Receiver Appointed.

ASHTABULA, Ohio, Aug. 30.—Benjamin  
A. May has been appointed receiver for  
the Ashtabula Water and Light com-  
pany. The action is the result of a suit  
commenced by the American Debenture  
company, of Chicago, which claims that  
the Ashtabula corporation has defaulted  
in the payment of interest on bonded in-  
debtedness.

## Charged With Taking Bribes.

NEW YORK, Aug. 30.—Police Captain  
John T. Stevenson was placed on trial  
before the commissioners today for the  
alleged accepting of bribes for sidewalk  
privileges while he was in command of  
the Leonard street station. The captain  
pleaded not guilty.

## Beaten by Robbers.

BEAVER FALLS, Pa., Aug. 30.—Masked  
robbers broke into the residence of Dr.  
A. Mercer of this place about 3 o'clock  
this morning and after beating the doctor  
and his son into insensibility ransacked  
the house and carried off \$100 and a  
few pieces of jewelry. The doctor  
is in a critical condition.

## The Window Glass Workers.

PITTSBURGH, Aug. 30.—The Window  
Glass Manufacturers association, which  
met in Cleveland yesterday, rejected the  
proposition of the Pittsburgh window  
workers' proposition conceding a re-  
duction of 20 per cent. The manufac-  
turers insist upon a 40 per cent cut.  
A conference between the manufac-  
turers and workmen will be held here  
Monday.

## Heavy Fires in Michigan.

DETROIT, Aug. 30.—A special to the  
News from Negaunee, Mich., says heavy  
fires are still raging in the Front Creek  
district. The Diamond Match company  
has lost fully 90,000,000 feet of lumber  
and the Nester estate timber consumed  
is valued at \$1,000,000. The loss to  
homesteaders is also very great.

**Declined to Fuse.**  
GRAND RAPIDS, Mich., Aug. 30.—The  
Populist state central committee de-  
clined to exchange any of their candi-  
dates for those nominated by the Demo-  
crats. They are unwilling to concede  
anything to the Democrats.

**At Gray Gables.**  
BUZZARDS BAY, Mass., Aug. 30.—  
President Cleveland landed at Gray Ga-  
bles from the John D. Rogers soon after  
10 o'clock this morning.

## FOR THE MAJOR.

The Democratic County Convention Elected  
Delegates to St. Cloud Instructed to  
Vote For Maj. Baldwin.

Delegates Chosen to the Legislative and  
Judicial Conventions But Were Not  
Given Any Instructions.

Although Called For Twelve O'Clock It Was  
Nearly One Before the Convention  
Was Opened.

T. T. Hudson Was Chosen Temporary  
Chairman and After Organization Was  
Retained in That Position.

Procrastination, that hoary old thief of  
time, "touched" the Democratic county  
convention to the extent of sixty min-  
utes today. The hour for calling the  
"Brownies" together was set for 12  
o'clock, but Tom Brown did not show  
for order out of chaos until nearly 1  
o'clock.

T. T. Hudson being chosen temporary  
chairman, was delivered of a graceful  
little speech. He said that never in the  
history of the county are the people  
more in need of the triumph of  
Democratic principles. When socialism,  
paternalism and know nothingism pre-  
vailed and dominated the other parties, Dem-  
ocracy is strong. Democracy is strong  
for these elements find no favor with it.  
It is a party of the people, believes in  
the rights of the individual, is opposed  
to sectionalism and all special legisla-  
tion. So long as Democracy stands by  
such principles, it will be triumphant.  
S. F. White, John D. Brady and Dr.  
Gilbert were named as a committee of  
three on credentials. The committee  
took recess for twenty minutes. The  
committee retired and such of the dele-  
gates as had burning thirsts, went be-  
low and regaled themselves with Man-  
ager McCall's choicest soft drinks.

It was 2:05 when the convention was  
again called to order and the committee  
on credentials presented its report.  
Judge White read the report, which  
was adopted.

W. H. Tripp moved that the tempo-  
rary organization be made permanent.  
That was done without dissent.

On motion of Mr. Grannis, he and H.  
F. Greene, J. C. Bullitt, Judge White  
and J. W. Hunt were named by the chair  
as a committee on resolutions.

Alex Wilson moved that a committee  
of five be named to recommend a list of  
twenty-three delegates to the state con-  
vention. Motion adopted. A. S. Wilson,  
Ed Hazen, John G. Brown, C. C. Gross  
and Dr. Gilbert composed the committee.

On motion of Judge Jaques, he and S.  
T. Harrison, Charles J. Hunt, J. L. Porter  
and Ed Barnidge were appointed a com-  
mittee to select delegates to the congress-  
ional convention.

Dr. Murray moved that a committee  
select a list of legislative delegates  
be appointed.

The chair selected Dr. Murray, D. H.  
Hall, John C. Hollenback, Frank Cras-  
saweller and Charles McNamara.

A committee of five, composed of W.  
R. Spencer, W. H. Tripp, Oscar Mit-  
chell, Ed Ingalls and A. H. Crassaweller,  
was appointed to present a list of twenty-  
three delegates to the judicial con-  
vention.

C. d'Auremont moved an adjourn-  
ment of two minutes so as to give the  
committees time to report. The legis-  
lative committee came in just then and  
the motion was withdrawn. The dele-  
gates recommended were as follows:  
James Hart Jr., P. H. McGarry, James  
Grieson, Frank Spurbie, E. F. Mead,  
Frank Crassaweller, James Truedell,  
Alex Wilson, J. C. Bullitt, W. G. Burrows,  
M. H. McMahon, John L. Snapp, John  
Flood, Morris Griffin, E. H. Hall, John  
D. Brady and Dr. D. D. Murray. The  
report was adopted.

Just then E. P. Alexander made a  
motion favoring a recess of five minutes.  
The idea was accepted by the boys with-  
out dissent.

The committee on resolutions sub-  
mitted a rather prolix report which was  
adopted. John C. Bullitt submitted an  
extended and wordy report of the A. P. A.  
in the form of a resolution, which was  
adopted with a whoop.

The following delegates to the state  
convention were named on recommenda-  
tion of the committee: John G. Brown,  
H. J. Grannis, John D. Brady, F. D. Cut-  
ting, R. P. Cogan, H. F. Greene, A. S.  
Wilson, S. T. Harrison, M. H. MacMa-  
hon, Ed Hazen, C. M. Vance, Charles J.  
Hunt, E. E. Barnidge, Robert  
Louden, W. H. Tripp, M. S. Burrows,  
Capt. James Sullivan, W. R. Spencer,  
Dr. Z. K. Brown, C. O. Baldwin, J. C.  
Hollenback, Alfred Jaques, Louis Ham-  
mel.

The delegates selected for the judicial  
convention were: H. J. Grannis, F. W.  
Sullivan, J. W. Hunt, A. S. Wilson, N.  
J. Miller, S. F. White, Dr. J. T. Burnside,  
J. MacDonald, Alex Sang, H. B. Fry-  
berger.

## ARE SOMEWHAT WARM.

United States Authorities Do Not Like the Release of Morry.

The United States authorities are pretty hot over the release of C. L. Morry, one of the men who worked the Rainy Lake Improvement company swindle under the name of Clifton Morrison. He paid his fine a few days ago and was released and skipped. Inspector Wood, of the postoffice department, is here to prosecute him.

The deputy marshals, who had papers for his arrest, think there was a design to let him get away. Deputy Ed Brown does not blame Sheriff Sharpy, who was out of town at the time. He says Under Sheriff Dash agreed to notify Morry before he released him, his fine being paid. The jailer released him.

The United States officers are inclined to believe that the police department was not particularly desirous of seeing the United States government prosecute the pair.

Northern Trust Company Asks Clinton Markell and E. L. Bradley to Repurchase Some Stock.

It is Fifty Shares of the American Loan and Trust Company Sold in 1891 to J. M. Douglas.

They Are Said to Have Guaranteed to Purchase it When a Demand Was Made.

Some time ago judgment was entered in favor of the Northern Trust company against Clinton Markell and E. L. Bradley. The defendants now wish the case reopened. In 1891 J. M. Douglas, Jr., purchased fifty shares of American Loan and Trust company stock. The two defendants, directors of the company, made a guaranty contract agreeing to repurchase the stock if Douglas demanded it. He sold the stock to the Northern Trust company.

When the American Loan and Trust company assigned, the Northern Trust company called upon Bradley and Markell to carry out their guaranty contract and repurchase the stock. They refused, according to the files, and suit was brought, judgment being entered in favor of the Northern Trust company by default. The defendants claimed that the matter had escaped their notice, and they wished the judgment vacated and an answer admitted.

This morning the affidavit of William McKinley was filed in behalf of the plaintiff. He says that at the time of the transaction he was a director of the American Loan and Trust company. The directors wished to promote the business of the company and in order to facilitate the sale of its stock were willing to guarantee it. J. M. Douglas, Jr., being an intending purchaser and refusing to take the stock without a guarantee the defendants executed the contract mentioned in the complaint.

Other affidavits going to show that the contracts were so made were filed. The order to show cause why judgment should not be opened is before Judge Ensign today.

H. E. Long, assignee for Brown Brothers, has petitioned the court to extend the time of settling the estate one year. He shows that, he has \$370,000 belonging to the assets on deposit with the American Loan and Trust company, and that it is impossible to get it within that time.

Herman Stevens has filed an objection to the report of S. A. Swartz as assignee for John Peterson and Herman Stevens. He alleges various discrepancies, such as the disappearance of \$673 in cash turned over to the assignee by the objector, and other like eccentricities. He asks a fuller report.

IS BRINGING THEM IN.  
Nearly All Boats Are Again in Commission Owing to Increased Rates.

The increased business and advanced rates are calling into commission all the boats on the lakes, and by the end of the week the number of vessels not in active service will be small. The combination to enforce a higher rate for coal is now established, and every broker in Cleveland is a member. Fifty cents has been paid for several coal barges since the brokers resolved to take no cargoes for less than that amount, and only one charter at 40 cents is reported.

Eighty cents has been established as the contract price for ore cargoes, and the rate is firm. There is a possibility that brokers will ask for more than that before long.

Wheat is strong at 2 1/2 cents, although there is little demand for tonnage today. It is reported that the shipowners are offering 2 1/2 cents to load after Sept. 15.

The lake and rail rates on package freights are reported to be again demoralized, although business is good. The rates were restored a few weeks ago, but nearly all lines are cutting again.

Clearances: Wheat, Colgate, 92,000 bushels; Buffalo, Iron Cliff, 55,000 bushels; Buffalo, M. Nicol, 25,000 bushels; Buffalo, flour, Schuyler, 25,000 barrels; Fairport and Erie, Nicol 2000 barrels; Cleveland; lumber, Thomas Cahoon, 50,000 feet; Chicago; one, 103, 2220 tons; Buffalo; George Stone, 1920 tons; Buffalo.

Kennedy & Co., of the underwriting syndicate for the Minneapolis & St. Louis Railway company stockholders' reorganization committee for the entire \$7,500,000 of new bonds and stocks provided for in the amended plan of reorganization. This plan has been completed and in view of the sale of the property announced for Oct. 11, under the decree of the foreclosure of the improvement and equipment mortgage it is likely to be announced officially today. The plan empowers the committee to buy in the property, and if successful as a bidder, then to form a new company, which will be freed from all obligations of the present company except the underlying 6 per cent and 7 per cent mortgage bonds, the principal of which amounts to \$1,760,000. The new company will issue \$1,000,000 of second preferred stock and \$6,000,000 of common stock, these two latter classes of securities being the same in amount as the preferred and common stock of the existing company.

The new company will also issue \$10,000,000 of first consolidated mortgage bonds, of which \$5,000,000 will be reserved for the retirement of these underlying bonds, \$5,000,000, leaving in the hands of the committee \$5,000,000 to be used in payment of the purchase price of the property, the foreclosure sale, to acquire other outstanding underlying bonds, to pay interest, etc.

The bonds to be issued not being equal to all the necessities of the reorganization, an assessment of \$25 per share will be levied upon the present preferred stock and common stock and \$2,500,000 of new first preferred stock shall be issued therefor and shall be entitled to a dividend of 5 per cent per annum cumulative, subject to retirement at par and reduced dividends upon due notice. The new second preferred and common stock shall be entitled to a noncumulative dividend of 5 per cent per annum, earnings in any year after said payments shall be applied to dividends on the second preferred and common stocks with equal discrimination.

Any surplus moneys from the assessments received and the sale of the first consolidated bonds shall be used to turn over to the treasury of the new company. Under this plan the fixed charges of the new company will be as follows: On \$3,360,000 of underlying 7 per cent bonds, \$235,200; on \$1,382,000 Pacific division bonds, \$82,920; on \$5,282,000 first consolidated 5 per cent mortgage bonds, \$394,100; total fixed charges, \$399,540.

The net revenues of the property after paying the expenses, taxes and rentals, as shown by the receiver's report have been: Year ending June 30, 1892, \$863,138; year ending June 30, 1893, \$782,619; year ending June 30, 1894, \$749,972. During the past three years the surplus earnings have been sufficient each year to pay considerably more than the 5 per cent dividend on the proposed issue of first preferred stock. The company will under the plan proposed have sufficient working capital and its road and equipment is said to be in good condition.

TACOMA, Wash., Aug. 31.—The collier Mackinac is ashore at Alkali point. Passengers who arrived from Seattle report her lying head on near the rocks on the point's southern extremity. Her cargo comprises 4200 tons of carbon coal. The thick smoke from forest fires accounts for her running ashore.

## WRECK IN THE ATLANTIC.

Thought to Be That of the Little Milwaukee Boat.

NEW YORK, Aug. 31.—The steamship Scandia, which reached port today, reports that on Tuesday she sighted a wreck estimated at 30 feet long but it was too dark to make her out distinctly. This derelict was encountered in latitude 48°06' longitude 5°19', which would be the probable location of the wrecked vessel and her position when sighted, it is not impossible that it may have been the little vessel, left by Capt. Nims, the Norwegian adventurer from Milwaukee, left this port to sail single-handed across the Atlantic. The Nims is about 100 feet long and all would be in about the position mentioned on the date when the Scandia passed the wreck.

## CHANCES BRIGHT

Mr. Towne Regards Chances for a Republican Victory in the Sixth District Especially Bright.

John L. Townley Fired Out of a Democratic Convention at St. Paul and Hot Words Ensue.

The Keeper of a Road House Near St. Paul Shot by a Burglar in His Room.

Andrew Nordberg Instantly Killed at Ashland Today by Falling Under an Omaha Passenger Train.

ST. PAUL, Aug. 31.—[Special to The Herald.]—Hon. A. T. Koerner, nominee for state treasurer, and Hon. C. A. Towne, nominee for congress in the Sixth district, were callers at the rooms of the Republican state central committee this morning. Both were on their way home from Winona where they had attended the big Republican rally which accompanied the renomination of Congressman Towney, and they were equally enthusiastic over that meeting. Mr. Koerner says he was told by Democrats in Winona that, whatever else came, there would be no fusion in the First district. John Ludwig, who is the choice of the Winona delegation to the Democratic state convention for lieutenant governor, was particularly emphatic in his declaration that they were unalterably opposed to fusion. Mr. Towne regards the chances for a Republican victory in the Sixth district as especially bright. He says that it was expected that the Duluth delegation would be instructed for Maj. Baldwin and that he will in all probability be re-nominated. He also says that Capt. Smallwood will undoubtedly be the Populist nominee for congress, and that it will be a three-cornered fight all the way through, with no chance for fusion anywhere.

## FIRE FROM A CONVENTION.

John L. Townley Thrown Out of a Democratic Convention.

ST. PAUL, Aug. 31.—A decidedly dramatic scene was witnessed in the Democratic county convention today when John L. Townley, a Democrat of state reputation, was "fired" from the convention. The credentials committee reported that Townley was not entitled to a seat on account of his past political record.

A row was at once precipitated. The motion was put, and the chairman declared it carried. "Division," yelled a hundred delegates. An attempt was made to carry Townley into the hall, but he was not permitted to go into an immediate trial.

Mayor Smith inquired if a motion to lay on the table was debatable, and the boys said it was, but the boys whistled at the chair, and they went at it in a rather warm way.

Mayor Smith spoke, denouncing Townley as a traitor to the party, and others replied. Finally Townley got the floor and denounced Smith and gang rule generally. He avowed that he was a Democrat and had supported the party since when gang rule was the order of things. Finally the committee reported an amended resolution as follows:

"Resolved, that it be the sense of the committee on credentials that the past political career of John L. Townley has been such that he should not have been elected as a delegate to this convention, but we will not question his right to a seat now."

Towney then walked out of the convention and further hostilities were postponed until afternoon. The resolutions presented this afternoon were strongly against fusion.

ST. PAUL, Aug. 30.—F. E. Encell, the attorney for Murderer Wonigkeit, called on Governor Nelson this morning and presented a petition containing 354 names asking that the sentence of death be commuted to life imprisonment.

The thief got away without leaving any clue to his identity beyond the fact that he is described as rather small in stature and wore dark clothes.

In the Field as Eau Claire's Candidate for Nomination.

EAU CLAIRE, Aug. 31.—It is authoritatively announced by his friends that Gen. M. Griffin of this city, will be in the field as Eau Claire county's candidate for the Republican nomination for congress.

It having been understood from expressions received from well informed observers that none of the gentlemen of the other counties who have been mentioned as possible candidates would enter the field against Griffin, it is within the probabilities that Gen. Griffin's nomination may be accomplished practically without opposition.

There are assurances from LaCrosse, Jackson, Buffalo and Monroe counties that such will be the case.

He has with him Chiefs Dushy Head and Black Bull, whose tribes occupy the country in which his ranch is located, and who went with him as helpers in order to enjoy the trip east. "I believe Montana will go Republican this year," said he. "It certainly ought to, for the Democrats have done nothing that would help that country, but all they could do injure it."

## VIGILANT AHEAD

The American Yacht Was the Winner of the Race With the Satanita This Morning.

The Britannia Was Unable to Start Owing to the Death of Her Chief Officer.

Large Fleet of Pleasure Craft Gathered in the Pretty Land Locked Harbor of Dartmouth.

The Sea Was Smooth and a Paltry North Wind Blew, Which Favored the Vigilant.

DARTMOUTH, Aug. 31.—To the great delight of the yachtsmen assembled here, aloft and ashore, the Vigilant began early this morning to make preparations for a race. The American yacht arrived here early and anchored in a most picturesque manner up the river Dart. When she came to an anchor she was saluted by the flag dipping of a large fleet of pleasure craft gathered in this pretty land locked harbor, with its beautifully wooded surroundings and with the old town of Dartmouth for a background.

The morning was disappointing, for the sea was smooth and a paltry north wind was blowing with little promise of increasing in strength or furnishing material for a good day's racing. According to the British yachtsmen this was just the kind of weather to suit the Vigilant. They commenced predicting that she could easily defeat the Satanita, the latter being looked upon as very slow in light winds and as capable of beating the Britannia in a very stiff breeze.

Of course the regatta lost much interest from the fact that it was understood that the Britannia, the pride of Great Britain, was unable to start on account of the death of Chief Officer Simons and two companions on Saturday last, while attempting to pull ashore from the price of Wales yacht club on August 25 last here, she was unable to start on account of a death, her white ensign then being half mast in consequence of the death of the duke of Saxe Coburg-Gotha.

The race which the Vigilant took part in today was a yacht race exceeding forty miles. The first prize \$250, second \$100. The course is a triangular one from Dartmouth range to the bell buoy of the Skerries, thence to a mark on the east of Blackstone and back to the starting, four times around to complete the total distance of 40 miles.

Dartmouth harbor today presented a beautiful spectacle. The visiting yachts of the squadrons were drawn up in lines, like house boats, and the water of the quiet old harbor was alive with small craft. At various spots above the hills which rise 300 to 400 feet above the harbor, were gathered parties of picnickers prepared to enjoy themselves to the utmost.

It is probable, however, that the most interesting of the spectators of the race today were the royal naval cadets, the training ships Britannia and Hindostan. The aspirants for naval honors were given a whole holiday today, and they enjoyed themselves to the utmost. On board the training ships, the cadets entertained large numbers of their relatives and friends, and the bands of the two ships made the air delightful with the sound of music.

When the hour for starting the main event arrived, the wind did not strengthen and the aquatic critics looked upon the race as being virtually decided in favor of the Vigilant. The following were the times of the two yachts as they crossed the starting line: Satanita, 10 h 30 m 17 sec; Vigilant, 10 h 30 m 49 sec. The former had thirty-two seconds the best of the start, but the Vigilant began to overhaul her and four minutes after crossing the line the American sloop passed the Satanita to windward and set her spinnaker for a broad reach to the Skerries. The Vigilant then began steadily increasing her lead and the Satanita stalked among aquatic people began to go down steadily, until everywhere it was admitted that she had no chance of overhauling her fleet rival in the very light breeze prevailing.

The first round was sailed in an entirely uneventful manner. The Vigilant maintained a steady lead on the Satanita, and it was evident that unless the wind increased very materially the cutter had not the slightest chance of winning. Towards the end of the first round the breeze did freshen slightly and the Satanita did much better, pulling upon her leader considerably. But the American yacht had a winning lead when passing Dartmouth range at the end of the first round of 15 and 10 sec.

Later—Eventually, owing to foggy weather, the race was stopped after the yachts had been becalmed for a long time, with the Vigilant in the lead. The sailing committee of the Royal Dart Yacht club decided that the Vigilant, Satanita race was void, and consequently the Vigilant does not get the prize.

**The Weather.**  
U. S. WEATHER BUREAU, DULUTH, MINN.,  
Aug. 31.—No rain has been reported during the  
last twenty-four hours, and this morning the  
weather is clear in all reporting districts ex-  
cept cloudy in Eastern Minnesota. It is much  
warmer in the Dakotas and Eastern Minnesota  
under the influence of an area of low baromet-  
ric pressure which is advancing southward  
over that section. The barometer is  
highest over Wisconsin.

State of water at St. Mary's falls, this morn-  
ing at 8 a. m., today, 14 ft. 6 in.; forecast for next  
thirty-six hours, stationary.  
Duluth temperature, at 8 a. m., today, 78 de-  
grees; maximum yesterday, 78 degrees; min-  
imum yesterday, 54 degrees.

**DELTA, Aug. 31.**—Local forecast till 8 p. m.  
tomorrow: For Duluth and the immediate  
vicinity of Western Lake Superior: Fair,  
stationary temperature, easterly wind. For  
the interior of Northeast Minnesota: Fair,  
easterly wind, warmer today and to-  
morrow; maximum yesterday, 78 degrees; min-  
imum yesterday, 54 degrees.

**WASHINGTON, Aug. 31.**—Forecast till 8 p. m.  
tomorrow: For Wisconsin: Fair, warmer; south-  
easterly wind becoming westerly. For Minne-  
sota: Fair; warmer; southwesterly winds.

**A Very Strong Ticket.**  
The county ticket placed in nomination  
by the St. Louis county Democrats is,  
beyond all question, the strongest  
ticket that was ever named by any party  
in this county. It embraces men of great  
personal strength, and it gives repre-  
sentation to all factions of the party, so  
that it is calculated to produce the ut-  
most harmony and enthusiasm and re-  
ceive the full party support.

J. C. Callahan, who was named as  
clerk of the district court, has been man-  
ager of the Singer sewing machine  
branch here for years, and is favorably  
known. The nominee for treasurer,  
Capt. Frank Hibbing, is a man of great  
personal strength, and eminently  
qualified for the position. The  
county would be fortunate in  
securing the services of such an efficient  
man in the important position of treas-  
urer. Capt. Hibbing is no novice in the  
work of county treasurer, having filled a  
similar position previous to coming to  
this city. There is no man in this sec-  
tion more widely known than Morris  
Thomas, the candidate for sheriff.

It is unnecessary to say anything about  
the qualifications of James A. Smith for  
auditor. He filled that office for several  
years to the complete satisfaction of the  
people. The name of Henry Truelsen,  
who has been named the candidate for  
register of deeds, is favorably known to  
nearly every man in St. Louis county.  
The esteem and respect in which Mr.  
Truelsen is held, his widespread  
popularity and his excellent qualifica-  
tions for the office, make him a particu-  
larly strong candidate. Oscar E. Mit-  
chell, who has been named for county at-  
torney, is well spoken of, and the other  
candidates have hosts of admirers.

The office of county commissioner is  
one of the most important in the gift of  
the people, and the interests of the  
county demand that great care should  
be taken in the selection of members of  
the county board. The choice which the  
Democrats have made for commissioner  
from the Second district is particularly  
fortunate. T. B. Hawkes is one of Du-  
luth's best known and most highly  
esteemed business men, and his election  
as county commissioner would be an as-  
surance that the interests of the  
people would be carefully guarded. The  
Herald is confident that the people who  
live in the Second district will give Mr.  
Hawkes their hearty support and avail themselves of the  
services of so well qualified a man for this  
important office.

While it placed in nomination such a  
strong county ticket, the convention dis-  
played considerable weakness by en-  
dorsing Maj. Baldwin for a renomi-  
nation. From a political standpoint, from  
a Democratic standpoint, it was an un-  
wise move. It may be the means of se-  
curing Maj. Baldwin's renomination at  
the St. Cloud convention, but what of  
that? Is the renomination of Maj. Bal-  
din to be preferred by the St. Louis  
county Democrats to the success of the  
party at the polls in November? Would  
it not have been better policy to have  
let the delegates go to St. Cloud with-  
out being tied hand and foot to vote for  
Maj. Baldwin and to have there selected  
some one of the able Democrats of the  
Sixth district who could poll at least the  
full party strength?

Certainly the Democrats who com-  
posed yesterday's convention know well  
that no Republican in St. Louis county  
will vote for Maj. Baldwin, while there  
are hundreds of Democrats and Inde-  
pendents who will vote against him.  
There is nothing that Mr. Towne could  
more desire than the renomination of  
Maj. Baldwin. When he goes out  
through the district, Mr. Towne will  
find supporters everywhere among men  
who voted for Maj. Baldwin two years  
ago. Mr. Towne is an able and even  
brilliant speaker and he has such a  
thorough grasp of the main questions that  
he will be prominent in the campaign that  
he will be able to pour hot shot into the  
major's record all along the line.

**His Sober Reflection.**  
Chicago Tribune: "I suppose," mused  
the tragedian on his way back from a  
jour at Dwight, "I am now what might  
be called a Keely cured man."

**Street Pavements.**

The question of repairing the streets  
of St. Paul is attracting a good deal of  
attention, and from the discussion of the  
relative merits of various kinds of pave-  
ments which is proceeding, some infor-  
mation may be gleaned that will be of  
value to Duluth. The St. Paul Dispatch  
says that in New York 72 per cent of the  
street pavements are stone blocks, 17 1/2  
per cent asphalt, and less than one-half  
of 1 per cent of the paved surface of the  
city is covered with cobblestones.

In Philadelphia cobblestones predomi-  
nate among other forms of pavement,  
these being the figures: Cobblestones,  
31 per cent; stone blocks, 24; asphalt  
macadam, 25; rubble and brick, 10.  
In Boston 50 per cent of the pavements  
are asphalt, 33 gravel and 17 stone blocks.  
In Chicago the favorite method for  
distinguishing the public highways from  
the private roads is by the use of wooden  
pavement, with which 65 per cent of the  
street area of the Windy City is covered.  
Thirty-two per cent is asphalt and 3 per  
cent is stone blocks.

Washington has a pavement peculiar  
to itself, called coal tar, covering 16 per  
cent of the highways of the City of Mag-  
nificent Distances. Another 16 per cent  
is covered with block stones, and 9 per  
cent with cobblestones, making together  
25 per cent, the other 59 per cent being  
covered with asphalt. In St. Louis these  
figures are: Asphalt, 86 per cent; stone  
blocks, 12, and wood, 2 per cent. In  
Europe, Berlin stands at the head of  
other cities with 83 miles of asphalt  
against 26 miles in Paris and 24 in Lon-  
don.

The following very sensible remarks  
are made by the Montevideo Leader, of  
which Hon. H. E. Hoard, one of the  
staunchest Republicans in the state, is  
editor: "Republicans who devote their  
time to making fun of the principles of  
the Populist party or in denouncing the  
character and abilities of the Populist  
nominee for governor are not helping  
their own party very much. Owen is as  
clean a man personally and in his busi-  
ness affairs as can be found anywhere  
and those who undertake to prejudice  
the people against him in that way are  
only hurting themselves." There are  
some Republican speakers in the neigh-  
borhood of Duluth who would do well to  
profit by these remarks and change their  
present policy, which is not helping their  
party.

The Philadelphia Press says: "Gov-  
ernment control would prevent strikes.  
It did last week in Odesa, Russia. Our  
cable dispatches had a brief account of  
what took place. The street car men in  
Odesa struck for higher wages. Street  
cars in Russia are under government  
control. When the men struck the  
police were called out and forced the  
men to go on with their work at the old  
wages. The army under government  
control, and where this exists, if a strike  
interferes with any necessary work, the  
men are forced to go to work again, whether  
they like it or not—as soldiers are."

There is some talk that Congressman  
O. M. Hall may be the Democratic can-  
didate for governor. Mr. Hall in the  
last congress voted against an appro-  
priation for the deep waterway from  
Duluth to Buffalo. He would get such a  
big vote in Duluth that he really  
ought to run for governor in order that  
he might be counted.

One tangle in Willie K. Vanderbilts  
matrimonial trouble has been straight-  
ened out. The woman upon whom he  
was said to be lavishing money in Paris  
is now in New York and says she is not even  
acquainted with him. Perhaps the Geth-  
semane millionaire has been maligned.

It is said that President Cleveland pre-  
fers that the Democrats should be in  
a minority in the next house. Certainly  
after the record of the present house it  
would be a great load taken off Grover's  
mind.

The indications are now that Joel  
Heathcote will again be the Republican  
candidate for congress in the Third dis-  
trict. He made a good run two years  
ago and may land a winner this year.

Explorer Wellman now proposes to  
lecture. As he did not discover anything  
except floating ice, his lecture will hardly  
fire the enthusiasm of his audiences.

The Chicago Times says: "The Rus-  
sian thistle has invaded Chicago." It  
should be the Russian thistle that has  
invaded Duluth. It would be sure death.

Mr. Owen denies that he aspires to be  
United States senator, and is willing to  
leave that plum to Mr. Donnelly—if he  
can reach it.

**Towne and Tawney.**  
St. Paul Dispatch: Two congressional  
districts in Minnesota have spoken, and  
spoken well, this week. The Republicans  
of the Sixth and First have placed in  
nomination men who are in every way  
worthy of the confidence of the people,  
and who will admirably represent these  
districts in the next congress. Mr.  
Towne has yet to win his spurs, but no  
one who knows him can entertain the  
slightest doubt of his ability to do so.  
Mr. Tawney has already made a record  
in congress of which he may well be  
proud, and which many men older than  
he in public service may envy.

the tragedian on his way back from a

**The Office of the Pulpit.**

To the Editor of The Herald:  
I am not a member of Mr. Noyes' church  
or congregation, and did not hear his  
famous sermon, and do not rise to his  
defense. He needs no one to do that.  
His life and work in this city for the  
last ten years is sufficient answer, if any  
is needed, to any attack which has  
been made upon the propriety of his  
utterances.

What challenges my attention is the  
opinion that seems to be quite general  
among men of the world and which the  
various critics of Mr. Noyes have, to  
some extent, expressed in their articles,  
that the pulpit is not the place to arraign  
social and other sins, especially if they  
are right at home, but rather the place  
to teach solely the doctrine of love, to  
sing a sweet lullaby of peace, to make  
troubled hearts; to give as much  
security, repose and intellectual comfort  
as possible. A sort of a "balm shop"  
for the afflicted, and an entertainment  
for the balance.

### GOSPEL OF THE STREET.

Judge McIndley Objects to Being Twisted on His Political Faith.

Judge Austin N. McIndley is about as vigorous in his advocacy of Populist principles as he has been in the past. He is ready to talk and enlighten a wavering or ignorant brother, but once in a while when he gets an idea that someone is trying to make some of his ideas down on them good and hard. One of these occasions was two or three days ago when the judge was dining in a well known restaurant. A man went up to him and, with a patronizing air, remarked:

"Well, judge, what's this I hear. They say you have left the Populists and gone back into the Democratic camp. How is that?"

"Will you please mind your own business?" the judge retorted, snappily, and went on eating his lunch. The other man looked sheepish, grew red in the face and walked off leaving the judge alone with his thoughts.

J. W. Ball is another Populist and his confidence ought to be enough to alarm any old party member. "Don't you put any man down as not a Populist until you are sure he is not," said the judge, "for you may be badly off in your reckoning. Why, let me tell you, young man, the Democrats won't have 1000 votes in St. Louis county this fall. The People's party is in the ascendant and will come out on top."

C. d'Autremont, Jr., made a witty remark at the Democratic convention yesterday afternoon which brought a good laugh and a rather warm discussion and smoothed matters over nicely as a result.

The property of endorsing Miss Bangs for school superintendent was under discussion. She was accused of being a Populist. Mr. d'Autremont had presented her name and there were strong objections, the point being made that she appeared at the People's party convention but was conspicuously absent from the Democratic. He arose and defended her from the accusation and said he could say in all confidence that she had not promised her vote to any candidate on either of the other tickets.

There was a momentary pause and then a laugh was given over the convention that was good to hear.

W. M. Barton Died From Injuries Received While Coupling Cars.

W. M. Barton, a Duluth, Missabe & Northern railroadman, was mangled by a train at Duluth yesterday and lived only a short time. In coupling a car to the train his foot caught in the brake and he was pulled under the train, which passed over his body.

He died at 5:30 o'clock and the body was taken to Virginia, from which place it was brought to Duluth today preparatory to being shipped to Toronto for burial. Barton was 24 years old, and has a brother who is a conductor on the St. Paul & Duluth.

T. B. HAWKINS, Commissioner  
M. E. FANNING, Commissioner

The Democratic county convention at the Pavilion yesterday took up the nomination of county officers about 3:30 o'clock. The order in which they were mentioned in the call was carried out.

There was not much time wasted and the nominations were quickly made. The nominating speeches were neither remarkable for length or brilliancy. P. E. Dowling, of Tower, made quite an oratorical effort in seconding the nomination of Capt. Paxton for registrar of deeds and was applauded vigorously.

There was some witty talk over Mrs. Bangs' candidacy for school superintendent in the performance. In fact, the feature of the whole afternoon.

Nominations for clerk of court were first called for. H. F. Greene named C. B. King, Charles d'Autremont named Jeremiah Callahan and H. De Witt named J. J. Davis.

The first ballot resulted in the nomination of Mr. Callahan on the following vote: Callahan, 59; Grady, 10; Davis, 15; King, 7. The nomination was made unanimous after which Mr. Callahan made a short speech.

For treasurer Dr. Gilbert named Frank Hibbing and J. F. Greene named N. Miller. The first ballot was 59 for Hibbing and 43 for Miller. Hibbing's nomination was made unanimous.

For county attorney J. C. Hollenback was named by J. C. Bullitt, Jr., and Oscar E. Mitchell was named by S. T. Barlow. Mr. Mitchell was nominated by a vote of 77 on the first ballot. On motion of Mr. Hollenback the nomination was made unanimous. Hollenback received 22 votes and John Rustgard 2.

For the office of sheriff H. J. Grannis named Henry Truelson. Judge White placed in nomination the name of Morris Thomas. The ballot resulted as follows: Truelson, 40; Thomas, 62. Morris Thomas was declared the nominee.

For the office of county auditor Edward Ingalls and James A. Smith were named. Smith was nominated by a vote of 66. The present incumbent, Henry Truelson, was nominated, but he declined.

For registrar of deeds S. T. Harrison nominated Capt. E. B. Paxson and A. C. Barlow was named. The ballot resulted in the nomination of Truelson by a vote of 54. Paxson received 35 votes and Barlow 8.

For coroner Dr. Hugo Spielier was nominated by acclamation. Judge Phoenix named C. S. Brown. The ballot resulted in the nomination of Brown by a vote of 54. Brown received 35 votes and Barlow 8.

Over the office of superintendent of schools there was quite a scrap. Charles d'Autremont nominated Mrs. Susan Bangs and H. J. Grannis named G. H. MacClelland. Mrs. Bangs was objected to as being the Populist nominee. Finally the matter was passed over on motion of H. F. Greene and no nomination was made.

Two nominations were made for surveyor. T. F. McGillevy was named by A. H. Crassweller. Alex Sang nominated Quincy A. Thomas. The result of the ballot was as follows: McGillevy, 33; Thomas was declared the nominee.

The delegates from the Second and Fourth congressional districts went into caucus and afterward presented names which were ratified. The Second district chose J. B. Hawkes and the Fourth M. E. Fanning.

Chairman Hudson was authorized to appoint a county committee of eighteen members. The vote of thank was given the officers of the convention and an adjournment was taken.

THE PLAIN PROOF  
Of Awards to Dr. Price's Cream Baking Powder of the Fair.

An envious New York competitor, who tries to sell inferior goods by labeling them "absolutely pure," seeks to belittle the award of highest honors to Dr. Price's cream baking powder at the World's Columbian Exposition by denying the facts.

The award to Dr. Price's is proved by the official records. Chief of Awards J. S. Browning writes: "The records of this department (agriculture) show that the executive committee on awards officially announced some time ago that an award had been granted the Price Baking Powder company on its exhibit of baking powder."

The Hon. John Boyd Thacher, chairman of the executive committee on awards, also writes under date of Feb. 14, 1893: "I herewith enclose you an official copy of your award, which in due time will be inscribed in the diploma and forwarded."

Why did the New York competitor not exhibit? Was it because his powder contained ammonia? The award to Dr. Price's at Chicago was for strength, purity and general excellence.

On similar grounds it received the highest award and gold medal at the California Midwinter fair.

Removal.  
Gordon & Hensley have removed to 360 West Superior street, Duluth Trust company building.

## PLAGUE OF HOT WEATHER.

Harvest Time Coming for Cholera Infantum.

Ignorance or Carelessness of Mothers, Says Board of Health.

Is Largely Accountable for This Slaughter of the Innocents.

September is the deadliest month for infants under 5, as November and December are the healthiest.

And the nights are deadlier than the days.

A strange ignorance exists among many mothers that diarrhea is natural during teething, and must not be checked until that period is over.

No more fatal ignorance ever entered parents' mind!

The greatest source of the fearful infant mortality for the past month will be diarrhea, cholera infantum, diarrhea, more or less fever, exhaustion or rapid loss of flesh, put the infant upon lactated food.

Lactated food has been expressly prepared to meet such cases. Under the advice of the professors in the medical department of Vermont university, more especially Professor A. P. Crippen, dean of the university, and Dr. S. M. Roberts, professor of the diseases of children, and under the direct supervision of Professor C. S. Paynton, the manufacture of lactated food has been carried on. It is supplied to physicians all over the United States. The late Dr. Agnew, of Philadelphia, is but one of the very many eminent physicians who have publicly recommended lactated food and used it in their own homes.

Lactated food has the confidence of physicians because every ingredient is well known to them. Made under the eye of an eminent physician as Professor C. S. Paynton, scrupulous care is known to be employed in securing absolute purity, reliability and thoroughness in its manufacture. The basis is sugar of milk, which is the basis of mother's milk. With it is combined the nutritious elements of the great cereals, wheat, oats and barley, so prepared as to be very easily digested and assimilated by the infant stomach. This makes an ideal infant food that resembles mother's milk in every respect.

And for beauty of it is that for twenty-five cents a mother can buy a package that contains enough to make ten pints of cooked food.

Lactated food should be given to all babies and young children who do not eat with relish, who are weak and drooping, who are unable to make the little sufferings "pick up" wonderfully, nurses say. The thin blood must grow rich on this healthy diet. And with all its great digestibility and assimilability, and above all a taste agreeable to the infant stomach.

Fate child end rain color at once when fed on lactated food.

Wm. Frank S. Griswold, of Milwaukee, Wis., whose baby's picture is given above, writes of our baby, Jessie, who was taken at 16 months, when she weighed twenty-four pounds, and was a very delicate child and not even our physician thought we could raise her. When 5 months old we made a change in her food, which she made the difference, tried other food, but without good results, and then sent to you for a sample package of lactated food, and she has taken nothing else from that time to this. She is perfectly well and is as bright and happy a baby as one could wish to see.

NEW MILITIA COMPANY.

A Fifth About to Be Organized and Wants to Be a Crack Company.

A fifth militia company is the newest thing. A meeting was held last night in the Chamber of Commerce at which W. G. Wray was elected chairman and Frank Sprague secretary. A set of bylaws was laid over to next week's meeting.

The new company is ambitious and proposes being the crack company of the state. It will contain a number of members of old company K, which under Capt. Henry DeWitt was the crack company of the Second regiment and one of the best in the state.

The Curtis-Murray Fight.

The Grand Rapids Magnet says of the coming fight between Jack Curtis and Tom Murray: "Frank Hayes arrived in Grand Rapids Saturday evening to arrange and complete every detail for the coming fight to a finish between Tom Murray, of Grand Rapids, and Jack Curtis, of Duluth. The fight will take place on Sept. 8. This is the first time Hayes ever met Tom Murray, and he says he has a fair chance to make a fight between him and Curtis will be worth a man's money to go and see. Frank Hayes has trained and seconded such champions as McCall, McDonald, and traveled all through Colorado, Utah and Wyoming with Champion Corbett in 1887."

## MUST WAIT TEN DAYS

R. S. Belknap, President of the Gas & Water Company, Did Not Submit a Proposition Today.

He Finds It Necessary to Call a Meeting of the Stockholders to Ratify It.

This Cannot Be Held Earlier Than Sept. 10. — Proposition Will Then Be Submitted.

The water works committee met this afternoon and R. L. Belknap, president of the gas and water company, appeared before it. Contrary to expectations he was unable to make a proposition to the city. He made a fair statement of the situation, however, and there is not one of the committee but believes that Mr. Belknap is acting squarely and with all possible haste. He told the members of the committee that matters were in such condition that he must call a meeting of stockholders of the company.

He wishes to present a plain proposition that there will be no retreating from and proposes to have it ratified by the stockholders before he gives it out. The earliest date at which he calls a meeting of the company's bylaws is Sept. 10 and for this date it has been called. He said he would leave for New York today and be back by Sept. 10. He would present a proposition as soon thereafter as it could be formulated.

After Mr. Belknap's statement C. A. Danson and C. W. H. H. spoke, saying that they thought Mr. Belknap's statement was the only business-like and reasonable one to take and would favor adjournment subject to the call of the chairman, D. G. Cutler made a motion to that effect and it was carried.

### THINKS HE WAS SNUBBED.

John D. Murphy Not Exactly Satisfied With the Treatment He Received.

J. D. Murphy, of Tower, sent as a delegate in the Democratic convention yesterday despite the fact that he was not one of the "Brownies." At the primaries at Tower Tuesday night, he defeated the state delegates and compelled them to appear on the platform yesterday. Mr. Murphy says he wonders if straight Democracy and an unquestioned standing in the city of Tower sent a man for recognition in a St. Louis county Democratic convention. With reference to that, he today said:

"I have held many an office of trust in the city of Tower for two years as assessor. After that, I declined further honors until last February, when by acclamation, the citizens elected me special municipal judge. Only a month ago, with the same unanimity, I was elected treasurer of the Tower school district, and also gave bonds in the sum of \$10,000. Furthermore, I possess enough of the confidence and esteem of the citizens there, so that I was not compelled to go to Duluth for recognition."

"All asked or hoped for in yesterday's convention was recognition. Yet, despite my Democracy and my standing at my home, I was ignored. The tower delegate from Tower and those from Soudan received the same treatment. We all were duly elected by the Democrats in our precincts, and yet we were compelled to appear on proxies. Our reception and treatment was all due to biasism which I and my associates as Democrats condemn in the strongest terms. I believe that bossism, in all parties, should be ruled out. Public sentiment is against bossism. Public sentiment should prevail. If I am spared life and strength, I shall make it my aim to wipe out bossism in St. Louis county Democracy."

### REDUCES THE FORCE.

Mayor Lewis Issues Orders Allowing West Duluth Only Twelve Policemen.

Mayor Lewis has issued a letter to Chief Armstrong ordering that the West Duluth police force be reduced to twelve men, those twelve to include one lieutenant and one sergeant. His honor leaves the selection of the men to be kept on the force to Chief Armstrong, Chief Briggs and chief Alderman. He then says "this reduction is due to no fault of the men but the present number is more than needed. There are only fifteen saloons in West Duluth, and the records show that the people are extremely peaceable and law abiding. A force of twelve men is all a large one."

This order lets the patrolmen and "breaks" one sergeant.

### The Municipal Court.

John C. Ferguson was arraigned in police court today on the charge of grand larceny in the second degree. One Biscornet alleges that the accused secured \$300 under false pretences. The examination will come off Sept. 7.

J. C. DeWitt, for having in his possession wild game, to-wit, the hind quarters of a deer, paid a fine of \$50.

Fred and Charles Chien were arraigned for grand larceny. They are accused of stealing a job lot of watches, chains, a gun, cut buttons, pocket stop, etc., from Hermann town.

### The Court Findings.

The receivers of the Northern Pacific have filed their answer to the \$500 personal injury suit of Charles E. Johnson. They also filed a petition for the removal of the case to the United States circuit court, together with a \$500 bond for the removal.

G. F. Ash, G. H. Claypool and C. R. Haines, referees in partition appointed by the court in the case of F. W. Higgins against the Hood heirs, have reported the sale in partition of the property mentioned in the complaint, consisting of lots and a house, for \$12,500 to J. W. Higgins.

### Grain Rate Still Firm.

The grain rate is still firm today at 2 1/2 cents, though somewhat quiet. Other freights are in much the same condition, with no retreat from the advanced rates and but little business for the time being.

The 50-cent rate on coal seems to meet with a good deal of opposition from coal men, who claim that the amount of coal to be shipped to Lake Superior has been over-estimated. The vessel owners are satisfied that a 50-cent rate is warranted, and they refuse to take anything less.

GOVERNOR WAITE DENIES.

Testifies That He Was in No Conspiracy About That Letter.

DENVER, Aug. 31.—United States Commissioner Hunsdale heard testimony for the defense today in the hearing in the charge against Governor Waite, President Mullins, of the fire and police board; Chief of Police Armstrong and Police Matron Dwyer of conspiring to withhold from ex-Matron Likens a letter for her.

Governor Waite was the first witness called. He declared he had never had anything to do with the matter whatever, and was greatly surprised when he learned he had been charged with an unlawful act. He never had a conversation with any person for the purpose of entering into a conspiracy for any purpose.

"The letter in question was handed to me to read," he said, "and I had to take it in my hands to do so. I immediately gave it to the person who handed it to me, and this is my entire and only connection with it. Chief of Police Armstrong is most certainly mistaken in his statement that he got the letter from me."

Commissioner Hunsdale discharged the governor and held the other three defendants to the grand jury.

## WORKING A REVOLUTION.

That is What the New Artificially Digested Food is Doing.

A REMARKABLE ADVANCE.

It is Now Possible to give the Stomach a Vacation Because the Food is Digested Before Being Eaten.

Paskola works wonders!

The great pre-digested food that makes people well is winning more praise by reason of what it has done for dyspeptic sufferers than any other preparation ever offered to the public.

A person who suffers from this distressing complaint usually feels a gnawing at the stomach, an "all gone" feeling as if suffering for want of food. There is a bad taste in the mouth, a coated tongue, gas rises from the stomach and sometimes there is sickness with a constant headache.

When people lose flesh they generally begin to feel alarmed. They want to retain what they have lost. Sometimes they are unfortunate enough to take cod-liver oil for that purpose. The effect of cod-liver oil taken in a weak, disordered stomach is to increase dyspepsia worse. Cod-liver oil will sicken a well person. Imagine its effects on a dyspeptic sufferer with a weak stomach!

But modern science has happily put an end to all this. People are rapidly finding out that the way to cure dyspepsia is not to make it worse. They are discovering that the best way to get flesh is to digest their food properly, and that when their food is well digested they do not suffer from dyspepsia.

Paskola cures dyspepsia, it makes sound, healthy flesh because it is not a medicine, but a food. Drugs cannot make thin people fat or cure dyspepsia of their dyspepsia.

Paskola is a pre-digested food which gives nourishment without the aid of the stomach. It contains those principles which are essential to the natural digestive process—its aid digestion. When it is taken it enters at once into the tissues of the body giving instant nourishment.

It permits the stomach to take a rest and get into a better condition.

Paskola is pleasant to the taste and agreeable to the most sensitive stomach. It has no nauseating or bloating effects, but tones up the whole body and creates a healthy appetite. It drives away all nervous sensations and enables every particle of ordinary food to be perfectly digested.

Paskola may be bought of any reputable druggist. An interesting pamphlet on food and digestion will be mailed free, on application to the Pre-Digested Food Co., 80 Ready street, New York.

# A TREMENDOUS TARIFF REFORM SALE

INAUGURATED BY

## PANTON & WATSON,

Glass Block Store, Duluth, Minn.

THE ABOVE HEADING MAY SEEM STRANGE TO SOME, while to the Free Trader and Tariff Reformer it is but what he expected—it is what he has labored for for months. To you it is a direct gain; to us it is a direct loss. The merchant who imagines his stock worth as much today as it was thirty days ago, is making a mistake. The change in Tariff has depreciated his imported merchandise on hand from 10 to 25 per cent, because he can buy it just that much cheaper in the market today. For months we have expected a reduction of this kind and prepared ourselves for it, we having only about \$15,000.00 worth of imported merchandise on hand when the bill became a law. This foresight put our buyers on the market prepared to take advantage of the many big bargains and baits generally offered in a panicky market. The Glass Block Store always lead in quantity, quality and low prices, and now we lead in putting into effect—at retail—the new schedule of Tariff duties that has now become a law.

### This Mammoth Sale Begins Saturday, Sept. 1, and Continues to Saturday, Sept. 8

This sale not only embraces the \$15,000 worth of merchandise we had on hand, but all Fall purchases that have been bought subject to the reduction in the Tariff, embracing over \$100,000 worth of imported goods. ## SHOT TO DEATH

Six Negroes Who Had Been Arrested For Incendiarism in Tennessee Were Lynched Last Night.

While Being Taken to Jail They Were Met by Fifty Men Without Masks and Killed.

Volley of Shot Was Poured Into the Wagon With the Prisoners and All Perished.

The Authorities Announce That Steps Will Be Taken to Bring the Lynchers to Justice.

MEMPHIS, Tenn., Sept. 1.—News comes this morning of the lynching of six negroes in the northern part of the county 2 miles west of Millington, a village on the Chesapeake and Ohio railway. For a year or more the people of that part of the country have been kept in a continual excitement by acts of incendiarism. Barns and dwellings have been burned and recently the buildings on the Millington grounds were destroyed.

Suspicion pointed to Dan Hawkins, Robert Haynes, Warner Williams, Ed Hall, John Hayes and Graham White and yesterday they were arrested near Knoxville, in the western part of the county by Deputy Sheriff Richardson. Later in the day Richardson started with his prisoners in a wagon for Millington, where they were to have a preliminary examination before a magistrate.

The six negroes were chained together. About midnight, when the party was nearing Millington, it was stopped by a mob of fifty men armed with shotguns, who killed all the prisoners and then, remounting their horses, which were tied near by, rode away in the darkness. The lynchings were not masked, but the officers, being new to that part of the country, recognized none of them.

An inquest was held on the bodies this morning and the jury, which included two negroes, found that the prisoners had come to their death in the manner stated, "at the hands of persons unknown." The new sheriff of the county, who enters upon his office today, will take the matter in hand promptly and vigorously.

Dan Hawkins was arrested a year ago when several others, charged with the burning of barns and residences in Kerville, in the northwestern part of the county, were taken to jail. They were brought to trial and two of them sentenced to terms in the penitentiary. They made a full confession and implicated Hawkins as the leader of the band of firebugs. Hawkins got a new trial, however, and after spending some months in jail, was released a few weeks ago. Since that time the burnings have recommenced and the Millington neighborhood as well as Kerville, are in a state of alarm.

Deputy Sheriff Richardson was employed to ferret out the incendiaries and with the assistance of a negro "spotter" he at length got evidence on which he made the arrest of Hawkins and the other five negroes who were lynched. About yesterday, the officer secured a two-horse wagon and a white man named R. T. Atchison to drive it. He loaded his prisoners into the vehicle, handcuffed and chained them together, and started for Millington. As they reached Big Creek, two miles west of Millington, somebody in the woods by the roadside called out: "Don't cross the road there. The bridge is down, come this way."

Richardson got down and taking the horses by the head led them into the woods, but suddenly Richardson saw two guns presented at his stomach and a stern voice said: "Throw up your hands."

"What does this mean," demanded the officer. "None of your d— business" was the reply. "Throw em up."

The officer obeyed. Then Atchison was ordered to get down and was placed under guard. The negro unseen mob, attempted to leap from the wagon. A volley rang out from forty or fifty guns and they fell back, wounded and dying. A dozen of the negroes leaped into the wagon and threw them out. Volley after volley was then poured into the faintly struggling mass, and in a few moments all was still.

Hawkins' head was almost shot from his shoulders, and some of the others were terribly mangled. The mob, after making sure that all six were dead, mounted and rode away. Atchison then mounted one of the mules and hastened to Justice Hill's house at some distance away, and notified him of the slaughter. The justice at once made ready to go to the spot, and at daybreak was there with a jury of inquest composed of five white men and two negroes, who rendered a verdict as above stated.

Sheriff J. A. McCarver, who was to have taken charge of his office today, will not do so until Monday. The outgoing sheriff, A. J. McLendon, will take the lynching in hand. He will go to the scene of the crime this afternoon. McCarver, the new sheriff, is a man of a hardy and determined character, and the general opinion is that he will not fail to find out the lynchings and land them in jail.

Judge Cooper of the criminal court summoned Deputy Sheriff Richardson before him today and questioned him closely concerning the lynching. The judge is prepared to issue bench warrants for the arrest of all parties to whom reasonable suspicion may point as being concerned in the matter.

## GAVE TO THE IRISH FUND.

LONDON, Sept. 1.—The Gladstone-Tweedmouth contribution of £100 each to the Irish parliamentary fund, is causing a sensation in all political parties. Baron Tweedmouth, in forwarding his contribution from Scotland, wrote to Justin McCarthy, chairman of the Irish parliamentary party, saying that he had received a note from Mr. Gladstone, enclosing a check for £100 to be forwarded to the fund. The Unionists are taking much of the fact that none of the money which is said to be pouring into the Irish coffers is going to the evicted tenants.

The Globe this afternoon, commenting upon these contributions, says that a double effect will be felt from this subsidy. It will keep the Parnellites in good temper and the evicted tenants will become more exasperated than ever. The Globe also says: "If Mr. Gladstone and Baron Tweedmouth have taken this action without consulting the premier or Sir William Harcourt, it savors of springing a mine upon them."

GEN. N. P. BARKS DEAD.  
He Passed Away at His Home Today From Brain Trouble.

WALTHAM, Mass., Sept. 1.—Gen. Nathaniel P. Barks, soldier and statesman, died at his home on Main street, this city, shortly before 8 o'clock this morning from brain trouble, after a long illness. For nearly two years the general has been a sufferer but he was not taken seriously ill until two weeks ago.

Early this summer he began to feel the end was near and he took to his daughter, the wife of the Rev. Paul Sterling, Mount Deer Isle, Me., for the summer. Three weeks ago his condition became more serious and he was brought to his home here. He grew worse and he was taken to the McLean asylum at Somerville. He succumbed rapidly and when he died he was surrounded by his family it was decided by the physicians that nothing could be done for him and yesterday he was conveyed to his home once more.

He began to sink rapidly, and at 1 o'clock last evening it was evident that the end was near. Approaching Mrs. Barks, with the general's daughter, Banks, and his niece, Miss Sybil Banks, were at his bedside constantly until his death. The general's death was a great loss to the community.

A SENSATIONAL LAWSUIT.  
It Is Likely to Be Filed in Louisville in a Few Days.

SPRINGFIELD, Mo., Sept. 1.—J. Delaney, an attorney, left here for Louisville, Ky., today. He went on a secret legal mission, but enough has been learned to warrant the statement that a sensational lawsuit may be filed in Louisville within a few days.

It seems that about three weeks ago, a Mrs. Spears, a wealthy woman in Louisville, died, leaving an estate of \$150,000. It seems that about three weeks ago, a Mrs. Spears, a wealthy woman in Louisville, died, leaving an estate of \$150,000.

Will NOT BE RECALLED.  
Monsignor Sattoli Is Likely to Remain Some Time in America.

WASHINGTON, Sept. 1.—Dr. Papi, secretary of Monsignor Sattoli, said today regarding the report from Rome, that at the end of this year Monsignor Sattoli will return to the Vatican at the request of the pope, that the delegate had not been advised by the pope of the matter and in view of that fact did not believe the report was true.

Dr. Papi said that whether Monsignor Sattoli remained here or not, someone would remain in the place he occupies. It is thought here that Monsignor Sattoli will not be recalled.

Well Known Man Dead.  
WASHINGTON, Sept. 1.—William J. Stevenson, president of the Metropolitan City railway of this city and one of the best known business men of Washington, died. He was taken ill a week ago in Chicago where he went to investigate systems of underground electric motors for use on his road. He was 53 years of age. During the '60s he served as chief clerk to Quartermaster General Rucker of the army.

Vacations at Public Expense.  
WASHINGTON, Sept. 1.—Gen. Armstrong, assistant commissioner of Indian affairs, has returned to Washington. During the past two months he has been summoned by the inspection of schools and agencies on Indian reservations near the Pacific coast. Commissioner Browning will leave on a short vacation in about ten days. He is planned to visit the number of reservations in the Dakotas and other sections of the Northwest.

Will Going Abroad.  
WASHINGTON, Sept. 1.—Representative W. L. Wilson, of West Virginia, was in the city today getting ready for his trip abroad. He will sail from New York Wednesday.

## OWEN MAY QUIT.

The Populist Candidate For Governor Said to Be Thinking of Retiring From the Contest.

Report That He Is Disgusted With Internal Party Dissensions and Washing of Dirty Linen.

The Internal Revenue Receipts During August Were the Largest on Record in This State.

Serious Charges Made in a Suit For Damages Brought Against the Minneapolis Street Railway.

ST. PAUL, Sept. 1.—A rather startling story was repeated yesterday in political circles, and while it was received with more or less incredulity, it seems to possess a foundation in fact that makes it worthy of consideration. It was to the effect that Owen is seriously considering the question of withdrawing from the Populist ticket.

He would justify such action upon the ground that it is very evident that he is not receiving the united support of the men upon whose assistance he counted and feels that he has a right to expect. The outcropping of factional fights, the washing of dirty partisan linen, the petty jealousies and the crimination and recrimination which he is encountering among the leaders of his party are necessarily extremely distasteful to a man of Owen's temper and grain, and he feels that he has about enough of it at this early stage of the game.

If it is to continue, to say nothing of growing worse, Owen thinks that it is better that he should step down at this time, before the campaign has far advanced rather than wait until he would be driven off the ticket by his outraged sensibilities.

The story gains credence from the well known fact that Owen has no particular touch for office, nor for the heat and smoke of a political battle. His tastes and inclinations do not lie in this direction, and it would not be surprising that he should desire to sever all connection with his unsavory associates as soon as possible.

THE LARGEST ON RECORD.  
Internal Revenue Receipts at St. Paul Were Very Heavy.

ST. PAUL, Sept. 1.—The receipts for August were the largest for any one month in the history of the internal revenue office in this state," said Chief Deputy Vars yesterday.

"The total collections were \$567,000 in round numbers. The largest checks we ever received were brought in about this date, one being for \$174,000 and the other for \$121,000. The large increase in the collections for August was due, of course, to the new tariff bill, the payments of the tax on whisky taken out of bond being unusually heavy. The disbursements at St. Paul and Minneapolis had a very large stock on hand and had to pay the heavy amounts mentioned, in order to get it out of the warehouses.

The tax on playing cards only added a little to the receipts, as there were only three days in August after the new bill went into effect.

SERIOUS CHARGES MADE.  
Suit for Damages Against the Minneapolis Street Railway Company.

MINNEAPOLIS, Sept. 1.—Charges of a somewhat serious nature are made in a suit which has been commenced by John P. Elmborg against the Minneapolis street railway and W. O. Stout, for damages for false imprisonment and injury.

Elmborg claims to have been injured in an accident last February and says that he was approached afterward by Mr. Stout, who offered him \$5,000 to leave the company, with offers to settle his claims. Elmborg had papers relating to the suit which he handed to Mr. Stout to look over. Stout took the papers away and has since refused to deliver them.

Another charge made by Elmborg is that his arrest was caused by Stout and the railroad company on a fictitious case, and that when tried he was released, his accusers failing to appear. He wants \$5,000 for the disgrace and shame attending his arrest.

POSTPONED BY THE JUDGE.  
A Surprise Given the Hennepin County Attorney by Judge Hicks.

MINNEAPOLIS, Sept. 1.—The county attorney was somewhat surprised this morning when the demurrer made by three of the defendants in the suit brought by the county against the Farmers' and Merchants' State bank came up before Judge Hicks. In order to get the suit on the September calendar of the term, Assistant County Attorney A. H. Hall had gone down to the court house, primed with facts and figures to combat the demurrer.

When the case was called, it was summarily disposed of by the court with the remark that, from certain information which had come to the ears of the court, the case would be postponed three weeks. Nothing was vouchsafed and attorneys as to the special information which occasioned the delay. The result of the postponement will be that the case will have to be continued over the September term.

Will Not Be Recalled.  
HASTINGS, Minn., Sept. 1.—Samuel Mortimer, of Sorliens Mills, Yellow Medi-

icine county, writes to ascertain the whereabouts of F. B. Knapp, who formerly lived at or near Hastings. The old man says that the latter saved his life about fourteen years ago when his boat capsized, that he has no relatives living, and that he has willed him all his property, 320 acres of land valued at \$16,000, and \$4250 cash in bank.

His Farm Burning.  
WINONA, Sept. 1.—A farmer residing near Arcadia is having the fearful experience of seeing his farm consumed before his eyes. His farm is mostly marsh land. Three weeks ago he set fire to a straw stack and the fire has been burning steadily ever since, burning into the bog a depth of several feet. About ten acres of ground has already been burned over, and the fire is still spreading.

Arrested For Forgery.  
CLAYTON, Wis., Sept. 1.—T. P. Gleason, of Stillwater, Minn., head agent for the Singer Sewing Machine company, has been arrested at Amery, Wis., for forgery. He was held under \$500 bonds and is to appear for trial on Sept. 5 at 1 p. m. It is reported that he has done considerable crooked work in the vicinity of Richardson, Wis.

Big Game at Aitkin.  
AITKIN, Minn., Sept. 1.—Three bears have been killed in sight of town this week, and the farmers in the vicinity report them as a common sight. Forest fires are driving them from the swamps. Any hunter desiring big game can find it to his heart's content by paying Aitkin a visit during September.

An Arm Mangled.  
DEVERE, Wis., Sept. 1.—George Verstraten, a young farmer who was caught by the pulley of a threshing machine, had his arm so badly mangled and fractured that amputation at the elbow was necessary. There is but little hope for his recovery.

Fire at Fergus Falls.  
FERGUS FALLS, Minn., Sept. 1.—Forest fires set fire to the hotel of Mr. Mills and to the store of W. A. Turner, of Randall, and destroyed them with all their contents. Insurance, \$500.

Would Be a Senator.  
ST. PAUL, Sept. 1.—Michael Doran is a candidate for the state senate and his candidacy has been launched since yesterday's Democratic county convention.

Ex-Governor Kirkwood Dead.  
IOWA CITY, Ia., Sept. 1.—Samuel J. Kirkwood, Iowa's war governor, died this afternoon. He had been gradually sinking for some time. He was born Dec. 20, 1813.

Stole a Diamond Ring.  
LITTLE ROCK, Ark., Sept. 1.—Mrs. H. F. Borley, wife of an ex-employee of the telephone company, has been arrested charged with the theft of a diamond ring valued at \$600 from Isaac Bennett, an ex-militia officer. Mrs. Borley had pawned the setting to a monument dealer for a tombstone for her brother's grave. The ring was admitted to bail in the sum of \$300.

SCHOOL DISTRICT SCRAP.  
Hibbing People Are Having a Quarrel Over School Directors.

There was a complicated scrap before Judge Ensign in special term today over an election, held in Hibbing July 21, to elect a director, treasurer and clerk of the school district. The matter came in the form of two petitions for writs of mandamus against Eugene Brown and T. L. Robinson, the old treasurer and clerk. The relators are the men who claim to have been elected to fill their places.

The matter came up before Judge Ensign this morning, and was continued to the afternoon to hear testimony. The relators claim to have been elected to fill their places. The matter came up before Judge Ensign this morning, and was continued to the afternoon to hear testimony.

## AN AWFUL FLOOD

Terrible Scene of Destruction and Desolation Is Reported in the Flooded District of Texas.

Thousands of Cattle, Horses and Sheep Drowned and a Million Dollars Loss on Crops.

One Half of the Houses in the Town of Uvalde Have Been Carried Away.

Town of Batesville Entirely Inundated With Heavy Loss of Property But No Lives Lost.

ST. LOUIS, Sept. 1.—A special from San Antonio, Tex., to the Post-Dispatch, says: The scene of destruction and desolation in the flooded district for a distance of 100 miles east and west from here and extending south from the Southern Pacific railroad to the Rio Grande, 200 miles away, is simply terrible. Thousands upon thousands of acres of pasture and farm land are still under water. It is estimated that the damage to crops in the valley of the Leona river alone will reach \$500,000, while in the valleys of the Saco and Sabina rivers the losses will be fully as much more.

Many thousands head of cattle, horses and sheep were swept away and drowned. Up to midnight all telegrams received here by Southern Pacific railroad officials and for the press, came by the roundabout way of El Paso, Pueblo and Kansas City, all direct connection with Uvalde and other towns being cut off. The wire is now restored, however, and information from Leona valley is now coming in.

Reports received this morning are more alarming than the earlier ones. It is still a matter of uncertainty as to the number of lives lost, but additions to the list of drowned are constantly being added. About one-half the houses in Uvalde, a town of 2800 people, were carried away, and there is much suffering there by homeless families, but no more fatalities are reported there.

Nothing has yet been heard from the settlement of seventy-five families, several miles below Uvalde, but there are still grave fears that many if not all of them were swept down by the torrent and lost. The town of Batesville was entirely inundated, and there was heavy loss of property, but no lives reported lost.

There are several other towns in the flooded district but they are away from railroads and telegraphs' reach, and nothing can be heard from them until the waters subside. All construction officials of the Southern Pacific railway have gone to the scene of the disaster, and several trainloads of material and men have gone west to repair the damage to track and reconstruct bridges.

SEVERE FOREST FIRES.  
Several Towns Along the Line of the Omaha Road in Danger—Bayfield Reported Burning.

The smoke has been almost suffocating in Duluth this morning, owing to a change of wind bringing smoke from extensive fires which are burning the country to the south and west. Large forest fires are reported all along the lines of railroad entering Duluth from those directions.

The fires extend from Itasca and Superior along the line of the Omaha for a long distance. At Mason, Washburn and Ashland they are especially severe, and several of the towns are in some danger.

A bridge was burned 2 miles south of Ashland this afternoon and the fires are getting closer. Details are meager. There is an unconfirmed report that Bayfield is burning.

Pat Collins' Assistant.  
BOSTON, Sept. 1.—It has just become known in this city that John J. Collins, legal associate of Consul General Patrick A. Collins, has accepted the appointment of vice consul at London. J. J. Collins sailed for England July 18, nothing was said at that time of his appointment as vice consul. It is now learned that Pierce J. Grace, who first filled the position resigned and that J. J. Collins has been acting as vice consul for over a month.

Kansas Bank Robbed.  
SALINA, Kan., Sept. 1.—Word has just been received that the bank at Tescott, fifteen miles north of here, was robbed this morning by two masked men who boldly entered the bank, killed the cashier and carried away considerable money.

Resignation Accepted.  
WASHINGTON, Sept. 1.—The resignation of John A. Chapman, of Illinois, chief of the inspection division, second assistant postmaster general's office, has been accepted.

Two Farewell Parties For Herr Carl Riedelsberger—Other Matters of Personal and Social Interest.

The days of picnics and summer entertainments are fast drawing to a close and in consequence society people are enjoying as much of outdoor life as possible. The pleasures, however, are mostly of an informal nature and are not to be chronicled among the society events. There have been several parties this week and a few are to be given in the future which will be announced soon.

The two assembly parties given recently at the Spaulding proved to be so delightful that the young ladies are clamoring for more. Accordingly the young men have arranged for two subscription dances to be given in September. The first may be given next Friday although this is not decided.

## DON'T LET BABY CRY.

The Fretful, Piteous Cry Shows Something Wrong With Food—Babies Relish Lactated Food—They Grow Fat On It.

If baby kept a diary it would be full of nothing but eating, sleeping and growing. These three things make up baby's existence. Plenty of rich, nourishing food, taken with a relish, brings sound sleep; and babies grow most rapidly during sleep. When a child cries piteously, as if some terrible pain were convulsing his whole tender little form; when the mother fails to soothe it either by lullaby or plaything, when perfectly distracted she runs to the doctor she is generally astonished by the simple statement which the doctor makes to her, that the sole cause

HENRY HEWITT YAGER.

A rousing benefit was tendered to Ed Shepherd, the colored pugilist, at the Parlor theater last night. Five rattling 3-round set-tees were given by John Jackson and George Curtis, Mose Jackson and Jim Hale, Charles Johnson and "Spot" Charlie, Hunter Briggs, and the "Dude," Jimmie Porter and Al Forbach.

Thousands of mothers know by experience that lactated food surely prevents cholera infantum and other summer disorders of a like character, and in hundreds of cases it has cured the severest attacks of these diseases. It is not safe to be without lactated food in the house.

Babies that are not gaining in weight, and whose mothers wish, and who show little animation and interest in things about them soon gain a liveliness and zest for living when fed with this splendid nutriment. They gradually cry less and less; their sleep becomes sound by night, and by day they are bright and noisy and happy.

Such is the great difference between babies that are nourished by lactated food and those that are poorly, because improperly, fed.

There is no parent in the land but can read the following letter with profit. It is from L. D. Yager, a well-known lawyer in Alton, Ill., and tells how his brother's child became the stout, sturdy youngster whose portrait is shown above. He writes: "My baby nephew, Henry Hewitt Yager, was born Jan. 17, 1892. Of that event he might quote Richard III, by saying, 'Sent before my time into this breathing world, scarce half made up.' At birth he weighed three pounds, and there were few who thought he could live. The mother was unable to nurse him, and this made the case all the more complicated. Sterilized milk was used, likewise goat's milk, and three or four kinds of baby food, but all to no advantage.

"In July it seemed a hopeless case, but luckily on the 13th of that month a package of lactated food was procured, which acted like a charm and he picked up right away. Before using the food the skin was wrinkled on his hands, and he was a frail, sickly little body. The picture I send you was taken in October, 1893, when the baby was about 8½ months old. He had used lactated food for something like ten weeks, and there is no need to comment on his condition. The picture will show for itself. He still uses the food, and there is one thing certain—lactated food saved his life."

## GIVEN UP ALL HOPE

Eczema, Turning to Blood Poison. Treated by Specialists Seven Months Without One Particle of Success.

## BODY RUNNING SORES.

Condition Terrible. Life a Burden. Tried CUTICURA. In Three Days Attends to Business. Cure Permanent.

In the spring of 1891 I took that dreadful skin disease, Eczema, which turned into blood poisoning. I consulted the best known specialists in this city. They treated me for seven months but I never recovered. I was a miserable creature, unable to walk and had given myself up as dead. I tried all medicines imaginable, until a friend who had got relief advised me to try CUTICURA. I bought a box and got it, and when I took the first dose of CUTICURA I felt a little better; with three boxes of CUTICURA I was a new man. In three days I was up walking around and attending to my business, and it is the CUTICURA and CUTICURA RESOLVENT that saved me from the jaws of death. This is two years ago. I wanted to see if it had been driven out of my system, and I can say I have never had any trouble since for two years. GEO. F. BRIGHT, 225 Penn. Ave., Pittsburgh, Pa.

## OLD COURT RECORDS

Some Interesting and Curious Things To Be Found in the Files in the Clerk's Office.

Writing of All Styles, Legible and Illegible, Before the Days of Typewritten Documents Are Found.

Some Papers Recalling the Old Case Against the City on the Dredging of the Canal.

The old files in cases which have been at the bar of justice in St. Louis county are interesting, and many of them furnish glimpses of the history of the settlement and of the early struggles of the almost aboriginal fish eaters who lived in this section years before most of us ever heard that there was such a town as Duluth, and before many of us were born.

Many of those whose names appear as parties to these musty old actions are now gone. Some have left without leaving their next addresses, having been called to answer for their lives at the last court of appeals, the eternal bar of divine justice. Others, weak of faith in the future prosperity of the City of Destiny, which had been their abiding place so long, have moved to other parts of the country, and are now kicking themselves because they traded that Superior street farm, which is now worth heaps of thousands of dollars, for a pair of mules.

Still others are names which every resident of Duluth would recognize as those of solidly established business men and families who trace their connection with the city back—well—into the time when old Voyageur Du Luth came up and went away, leaving by chance as a sole relic of him the name which as that of the metropolis of the interior, will perpetuate his memory through the ages as no deed of his own could ever have done.

The first files to be found in the vault at the court house are different in almost all respects from those being made today, when from number 1, the numbers have run up to nearly 10,000.

The jackets are clumsy, unhandy and unappealing, and are now in use. Instead of the handy attached rubber bands now used the jackets are very carefully wrapped each way with a pretty pink ribbon, which is tied in a bow knot, giving the fleshest appearance of a school girl's essay.

Even the printing and stationery is execrable. The legal phraseology is a little old fashioned, but it is just as cumbersome and unnecessarily prolix as that marvelous, intricate and "padding" literary style used by lawyers today.

Of course all the documents not printed are handwritten. The pretty type-written manuscripts were prepared by the writer some years after the time of the case. The writing is of all styles, from the cramped hand that requires a special expert to decipher to the delicate feminine hand that requires a strong light and a magnifying glass. How the court must have talked to itself when it was compelled to read some of that writing.

File No. 1 is dated in 1859, the case having been opened July 28 in that year. Justice court must have been engaged with the district court, for the signature of a village magistrate is the only judicial signature to be found among the first few cases. Douglas county, too, gets mixed up in one or two cases.

St. Louis county was then in the first judicial district, and appears from the files. The only county officers appearing in the first case are J. B. Culver, clerk, and Andrew J. Ellis, sheriff.

The title of the case is D. G. Cash et al., against Benjamin G. Armstrong. The action is over the title to some land at Ontonagon, Mich., taken in severally by Chief Buffalo Chief and by Armstrong. The summons was published in the St. Paul Weekly Pioneer and Democrat.

In the same box in which the cases run from 1 to 141, dating up to 1861, occur the well-known names of J. D. Howard, W. W. Spaulding, George K. Stuntz, W. E. Wright, Clinton Markell and H. M. Peyton. Later appears the signature of Michael Houle as sheriff in place of that of Ellis.

The next box of files is dated 1870. During the lapse of time from 1861 to 1870 no cases appear, so either the files are lost or the aborigines lost their litigious propensities for a time. In the latter case it must have been hungry times for the lawyers, who were probably compelled to live on whitefish, to angle for which they had abundant leisure. But as the historical records give no evidence of a wave of virtue sweeping over Duluth at that time, the explanation that the files are lost seems most plausible.

The first case in the second box, dated 1870, contains the names of J. J. Egan and W. W. Billson, attorneys for the plaintiff. J. R. Carey at that time was clerk of court, which is in the Seventh judicial district. The district court boasted a judge by that time. His name was James M. McKelvey, and he lived away over at St. Cloud, where Duluthians had to go for their justice. Later, in 1874, Duluth had a judge of her own, and was not compelled to import justice. In the same year appeared the name of George Harkness, sheriff, and C. R. Haines, register of deeds.

About this time a suit appeared in which Laura K. D'Unger, as proprietor of The Duluth Morning Herald, sued the Northwestern Telegraph company for \$10,000 for failure in transmitting the reports of the Western Associated Press. The law firm of Ensign & Stearns appeared for the plaintiff. Of this firm the senior partner is now the senior judge of this district, while the junior member is an ex-judge.

George K. Stuntz, a little later, applied to the court for a permanent injunction restraining the city of Duluth from cutting a hole in Minnesota Point and letting all the water in the bay run out. He represented that he was the owner of property on Minnesota Point which was worth \$70,000 and which was valuable only for harbors and docks.

## THE LITERARY ARENA

An Unusually Large Supply of Fiction in the September Number of the Atlantic Monthly.

Robert Louis Stevenson Tells How, Soon After Marriage, He Began to Write "Treasure Island."

Dr. H. P. Bowditch, of Harvard Medical School, Discusses Whether Composite Photographs Are Typical Pictures.

The Atlantic's supply of fiction in September is somewhat more than usually large. Besides Mrs. Deland's "Philip and his Wife," now within one month of conclusion, there are three stories—"Tante Carriette," by Kate Chopin, the writer who is coming into deserved prominence through her pictures of Louisiana life; "For Their Brethren's Sake," a powerful tale of a Derbyshire town, during the Great Plague, by Grace Howell Peirce; and Mrs. Catherine's "The Kidnapped Bride," the last of a series of old French-American stories. "Old Boston Mary: A Remembrance," by Josiah Flynt, tells the tale of a strange old woman of the tramp class so vividly as to leave one uncertain whether it is fiction or fact.

In Mrs. Louise Herrick Wall's sketch, "In a Washington Hope Field," too, there is so much of human interest that one may almost think of it as a story. "Chevalade and Down Again," by Charles Stewart Dawson, is again a record of actual events—a thrilling narrative of Alpin adventures. One of Miss Edith French-American stories, "Old Boston Mary: A Remembrance," by Josiah Flynt, tells the tale of a strange old woman of the tramp class so vividly as to leave one uncertain whether it is fiction or fact.

Mr. O. Flower's paper on "Early Environment in Home Life," in the September issue of the Atlantic Monthly, is a measure of common sense and justice being exercised toward young folks growing into maturity by parents and guardians in regard to the proper functions of their bodies, and the relations of the sexes. It also shows the destiny-shaping force of the moral years, and how loving care and intelligent sympathetic home surroundings and education can overcome or mitigate even bad hereditary tendencies. Beauty and truth, high ideals and example and the noblest of all these physical facts of life so freighted with moral perils is Mr. Flower's ideal of education for children. He believes parents do not feel their responsibilities enough, they think the whole of education is school books and the Sunday school. The greatest influences of all are in the daily lives and thoughts of the parents.

The amount of light that Harper's Weekly was able to throw upon the remote and little-known country of Korea, the instant that public attention was directed to it, may be taken as an indication of the almost boundless resources of the paper, and its capacity to deal promptly and competently with every occurrence of interest to the public.

A new edition of Mrs. Oliphant's well known book on the "Makers of Florence" is coming from the Macmillans in September. It is a four volumes intended for separate distribution, a volume being devoted to "Dante," "Savonarola," "The Castle Builders," "The Plagiarist Painters."

Harper's Bazar is presenting a great variety of fascinating styles for the early autumn, illustrated by Sandoz and Chapuis, two famous Parisian artists, and selected from Worth's most distinctive creations. These autumn toilets for outdoor and in-door occasions surpass anything previously shown in a fashion journal. The September issues will be enriched by elegant gowns and hats for walking and driving, and by beautiful gaiters, coats, and a variety of novelties by M. McClelland, "St. John's" and "The French Bakers." The eminent French chemist, Professor Berthelot, and the chemist, instead of from the fields of the farmer.

In an article illustrated with some very interesting photographs taken by himself, Dr. H. P. Bowditch, of Harvard medical school discusses the question whether composite photographs are typical pictures. The photographs are typical pictures of the living machine, on which all students of the mind and of the body have now been carefully studied, and his latest achievements will be occupying the attention of the public.

Carl Swenk, 39 years of age, disappeared from home on Tuesday evening, and has not been seen or heard of since. Considerable anxiety is felt in regard to his whereabouts. Our baseball nine "done up" the West Duluth Scrubs this week in a match and wood man combined in a trouble. He drives the ball boys out occasionally, and the boys insist on his getting a uniform. Now he has to take the band boys Labor day, and he is worried for fear he will have to get a band uniform.

There is a little scandal going the rounds here in which a couple of the church going young people are connected. Mrs. Berendsen and daughters Bessie and Martha left for Grand Rapids, Mich., Thursday. Miss Georgie Gifford accompanied them to attend school at the same place. The young people will be missed from social circles.

## DULUTH GRAIN TRADE

The Receipts and Shipments of Wheat and Other Grain at Duluth for the Past Year.

There is a Decrease in the Receipts But the Total is Thirty-four Million Bushels.

Large Increase in the Production of Flour and the Receipts of Flour By Rail.

An excellent showing is made by Duluth as a primary grain market during the last crop year which came to a close last evening. While there has been a decrease in both receipts and shipments of grain, the decrease is not so large here proportionately as it has been at other primary markets. It is worthy of note that the receipts during 1893-4 have only been exceeded twice in the history of this market—in each of the previous two years. The same is true of the shipments. "PAGEANT OF NATIONS."

Another Fine Performance Last Evening Before a Large Audience.

The "Pageant of Nations" is drawing near the close of a successful engagement at the Pavilion and each succeeding performance shows more completely the beauty of the show and the skill and talent of the performers. At the last performance, which was given last evening, the program was a most successful one. Miss Carrie Beninger's vocal numbers were as usual among the favorite parts of the program and her singing was heartily applauded. Miss Alice Pfeiffer's violin solos were exceptionally good. Her mastery of the violin shows promise of great proficiency, and even now her execution is excellent. Her numbers were enthusiastically received and she was called back each time.

The dancing was good as usual. The dance by Kate Harris, Kate Lee and Molly Kelly, of Minneapolis, and of Mabel and Hazel Range and Bessie McNaught were among the most notable. A matinee was given this afternoon. This evening and tomorrow performances will be given, and the engagement will close Monday night.

## THE LITERARY ARENA

An Unusually Large Supply of Fiction in the September Number of the Atlantic Monthly.

Robert Louis Stevenson Tells How, Soon After Marriage, He Began to Write "Treasure Island."

Dr. H. P. Bowditch, of Harvard Medical School, Discusses Whether Composite Photographs Are Typical Pictures.

The Atlantic's supply of fiction in September is somewhat more than usually large. Besides Mrs. Deland's "Philip and his Wife," now within one month of conclusion, there are three stories—"Tante Carriette," by Kate Chopin, the writer who is coming into deserved prominence through her pictures of Louisiana life; "For Their Brethren's Sake," a powerful tale of a Derbyshire town, during the Great Plague, by Grace Howell Peirce; and Mrs. Catherine's "The Kidnapped Bride," the last of a series of old French-American stories. "Old Boston Mary: A Remembrance," by Josiah Flynt, tells the tale of a strange old woman of the tramp class so vividly as to leave one uncertain whether it is fiction or fact.

In Mrs. Louise Herrick Wall's sketch, "In a Washington Hope Field," too, there is so much of human interest that one may almost think of it as a story. "Chevalade and Down Again," by Charles Stewart Dawson, is again a record of actual events—a thrilling narrative of Alpin adventures. One of Miss Edith French-American stories, "Old Boston Mary: A Remembrance," by Josiah Flynt, tells the tale of a strange old woman of the tramp class so vividly as to leave one uncertain whether it is fiction or fact.

Mr. O. Flower's paper on "Early Environment in Home Life," in the September issue of the Atlantic Monthly, is a measure of common sense and justice being exercised toward young folks growing into maturity by parents and guardians in regard to the proper functions of their bodies, and the relations of the sexes. It also shows the destiny-shaping force of the moral years, and how loving care and intelligent sympathetic home surroundings and education can overcome or mitigate even bad hereditary tendencies. Beauty and truth, high ideals and example and the noblest of all these physical facts of life so freighted with moral perils is Mr. Flower's ideal of education for children. He believes parents do not feel their responsibilities enough, they think the whole of education is school books and the Sunday school. The greatest influences of all are in the daily lives and thoughts of the parents.

The amount of light that Harper's Weekly was able to throw upon the remote and little-known country of Korea, the instant that public attention was directed to it, may be taken as an indication of the almost boundless resources of the paper, and its capacity to deal promptly and competently with every occurrence of interest to the public.

A new edition of Mrs. Oliphant's well known book on the "Makers of Florence" is coming from the Macmillans in September. It is a four volumes intended for separate distribution, a volume being devoted to "Dante," "Savonarola," "The Castle Builders," "The Plagiarist Painters."

Harper's Bazar is presenting a great variety of fascinating styles for the early autumn, illustrated by Sandoz and Chapuis, two famous Parisian artists, and selected from Worth's most distinctive creations. These autumn toilets for outdoor and in-door occasions surpass anything previously shown in a fashion journal. The September issues will be enriched by elegant gowns and hats for walking and driving, and by beautiful gaiters, coats, and a variety of novelties by M. McClelland, "St. John's" and "The French Bakers." The eminent French chemist, Professor Berthelot, and the chemist, instead of from the fields of the farmer.

In an article illustrated with some very interesting photographs taken by himself, Dr. H. P. Bowditch, of Harvard medical school discusses the question whether composite photographs are typical pictures. The photographs are typical pictures of the living machine, on which all students of the mind and of the body have now been carefully studied, and his latest achievements will be occupying the attention of the public.

Carl Swenk, 39 years of age, disappeared from home on Tuesday evening, and has not been seen or heard of since. Considerable anxiety is felt in regard to his whereabouts. Our baseball nine "done up" the West Duluth Scrubs this week in a match and wood man combined in a trouble. He drives the ball boys out occasionally, and the boys insist on his getting a uniform. Now he has to take the band boys Labor day, and he is worried for fear he will have to get a band uniform.

There is a little scandal going the rounds here in which a couple of the church going young people are connected. Mrs. Berendsen and daughters Bessie and Martha left for Grand Rapids, Mich., Thursday. Miss Georgie Gifford accompanied them to attend school at the same place. The young people will be missed from social circles.

The Receipts and Shipments of Wheat and Other Grain at Duluth for the Past Year.

written by Henry Guy Carleton.

John Drew will be the first attraction of note at the Empire this season. On Sept. 10 he will present, under Charles Frohman's management, "The Bauble Shop," a satire on the British house of commons by Henry Arthur Jones. The same author's very strong play, "The Masqueraders," will succeed Mr. Drew at the Empire when the excellent stock organization returns from its tour on Nov. 19 to inaugurate its regular season.

At the Academy of Music Mr. Frohman will revive "Shenandoah" on an elaborate scale as a spectacular melodrama, which it really is. As it is advertised to be given at popular prices, it ought to add another fortune to the one it has already made for the author, Bronson Howard, who, it is said, will also furnish the comedy which is to succeed "The Masqueraders" at the Empire. All in all, Manager Charles Frohman ought to manage to escape unscathed this season when it is taken into consideration that he will also have more than a dozen other attractions on the road.

The Lyceum theater will be opened by three concussions, rapidly improving and increasingly popular young comedies. E. H. Sothern, in a new play called *My Darling*, is a handsome fellow, as its title suggests, it deals with British army life, a character in which Mr. Sothern ought to be able to advantage. The second play is *My Darling*, a new newspaper man, whose "Sheridan" is a beautiful study. The plays in which the company will appear during the season beginning with the 15th of September have not been secured, but the titles have not yet been announced, although it is known that the company will all be by American authors. Manager Daniel Frohman is to be highly commended for his determination to give native talent the opportunity to show their plays. He has made money with their works, and he has decided to stick to them. This is the only way to know what he requires. This is a good thing.

We are to have some opera in great quantity and probably of good quality during this season. De Wolf Hopper will offer a version of "Cinderella at School," entitled "Dr. Syntax," by J. Cheever Goodwin and Woolson, formerly at the Broadway, Sept. 3. A few days earlier at the Casino, Della Fox will present "The Little Reindeer," an adaptation of a French work, by J. Cheever Goodwin and Wm. Greene and W. W. Furst. Francis Wilson will be for public favor at Abbey's theater Sept. 10, with "The Little Reindeer," an adaptation from the French by the prolific Mr. Goodwin. The music has been by the late, but not yet forgotten, composer of "Arminio," the famous "The Devil's Deputy" will come two weeks after "The Devil's Deputy" will be De Koven and Smith's new opera, "The Little Reindeer," which is written by the Herald Square, formerly at the New York, theater.

Olga Nethersole, who has been called the "English Bernhardt," just as was Mrs. Edward Beer, will make her initial bow on an American audience probably during the month of October in a New York theater. It is likely, however, that she will appear in England and that she will be a success, which lifted her from comparative obscurity into qualified fame. It is presented later. Some authorities declare that while Miss Nethersole's maturity still shows somewhat crude and without the subtleties of the French actress, she possesses such phenomenal power that she is certain to create a great sensation in this country. Mr. Austin Daly is credited with having waxed enthusiastically over her work, and if this be true, it probably augurs well for Miss Nethersole's future, as there is no surer judge of histrionic ability in the

Miss Olga Netherlands. On the score of his mother's death, he was brought up to be grateful to nature, which has given a very prodigal in its gifts to her.

**The Dark Side of a Jockey's Life.**

On the floor of the hottest room in an town Russian bath a small man lay on his back, his head resting on his hands and bones, with a few sharply defined circles in his arms and upper legs. In the room he had a small, round, bald head about the shape and size of an ordinary foot rule. This he rubbed over his head, shoulders and legs and wherever he felt a tickle. He was a Russian, and what might be called "the man's picture of a jockey's life." The man was a jockey, and the contrast between his life and his reception of the bath when he comes in on the back of a winning

The crowd was estimated to be in excess of 136 pounds. He had been in the saddle for two hours without taking a drink of any kind.

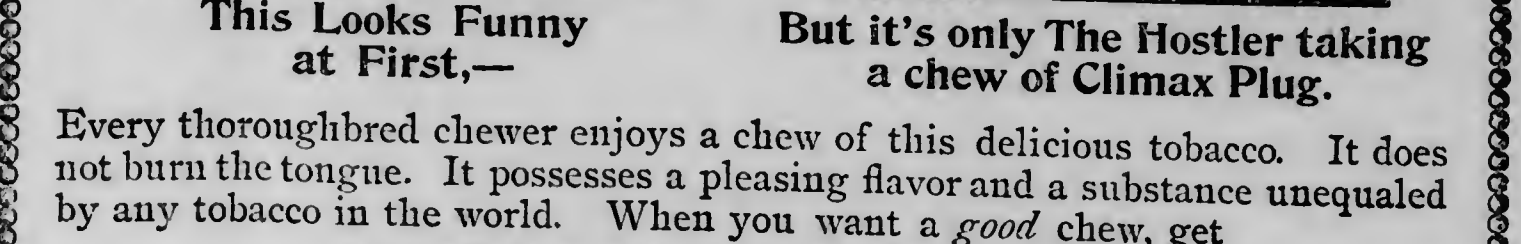

"I had decided that he could not go any longer and sent out for some rum and ice. This he took with the rum which was consumed by thirst in the next few minutes. He then remarked that that drink would put starter of a pound of weight on him in five minutes.
